A FLOUR, branded "Crown of Gold," an imitation of the original, has been put on the market. The Miller, coverous of the popularity of the now celebrated Flour CROWN OF GOLD, seeks to avail himself of its well earned popularity to sell an interior article. This fact of imitation is high testimony to the superiority of the Goldle Flour.

Observe, the genuine Grown of Gold has the name D. Goldle is red lithograph plainly on the head of each barrel, and every barrel is lined throughout with white paper.

Other imitations more or less resembling the name Crown of Gold are also on the market. The original always in Stock and sold at lowest rates by

WONDERFUL!

DETWEEN eight and ten years ago, a medicine was introduced to the public, and suffering humanity was invited to try the same.

The proprietor knew from experience, that success was certain, but the human breast isso imbued with prejudice that it forms one of the strongest barriers to break down and the greatest enemy to overcome before any headway can be made towards the masion of success. Truth has often proved itself to be "stranger than fiction," and it is a fact as solid as truth that SMITH'S CHAMOMILE PILLS have now become one of the leading Patont Medicines of the present day, from north to south, and from east to west, they are to be found in the homes of the rich and poor. All classes of society use them, and they are by thousands declared to be World Ster Weight in Gold.

For a Weak Stomach, Impaired Digestion, and all disorders of the Liver, they set like "MAGIC," and a few dose will be found to work wonders on the most important organs in the human machine. They strengthen the whole muscular system, restore the long-less complexion, pring back the keen edge of appetite, and arouse into action, with the rose-toul of health, the whole physical energy of the human frame. These are "facted" admitted by thousands, embracing all classes of society; and one of the best guarantees to the nervous and debilitated is, Smith's Chamemile Pills have the largest sale of any Fatent Medicine in the Dominion.

These are only a few taken from the hundreds in maypossession, and are the names of prominent business and professional men, well known. Directions for taking Smith's Chamomite Pills If the bowels are costive, the countenance sallow and the tongue furred, take 8 or 4 pills on going to bed; if they do not operate in ten hours, then take two more afterwards. Take one pill every (or every other night), just enough to keep the bowels gently moved. For ordinary, sillious Compinits one or two does are sufficient. These pills act on the system very similar to blue pills, or blue Mass, but do not contain the least particle of mercury or calome!
