that Mhat! can we not build at an important point, where it is urgently sequired for our own growing traffic a canal to suit out own purposes? We have evidently those amongst us who would push subserviency to the United States the length of abject submission. Young Canadians, so says the Globe, have no wish to fight for Jingo ideas against kinsment and friends. To which we reply:

And what about the combined City Hall and Court House?

And what about the combined City Hall and Charles the wet or the dry side.

The combination against the Premier of Manitoba appears to have gone the way of the Globe's majority of one. Ontario's old friend, Mr. Glass, has been elected Speaker, and throughout. The New York Life Insurance Company is about to erect a \$400,000 building on the should be able in that position to let honorable in Montreai, and they will not have a piece of timber or lumber in it!

Mail is of course with Gould, Wiman & Co. The Globe is nowhere, as usual. But it does not much matter. Neither of those journals is now representative of Canadian national sentiment, but their recreasory renders The World all the more thankful tor the Montreal Herald's endorsation of our protests against the false deliverance of the New York Annexation Club. Thank heaven, there are still some Canadian organs in Canada.

Why, there is commercial war of this kind wherever salesmen having the same kinds of goods to sell meet. They do not meet in deadly conflict exactly, but there is "war" of the liveliest kind between them for all that.
