At the non-jury sittings yesterday before MacMahon, J., the case of McCausland v. Hill was continued, but stands over till Monday next for the production of a witness, who was un-

able to attend.

The next case, the Webber-Johnston Printing Co. v. A. E. Dixon & Co., was an action brought to recover a balance of \$2052, alleged to be due on a contract by plaintiffs to print for defendant 20,000 copies of a catalogue of the goods sold by defendants. The defendant William Dixon is the father of defendant A. E. Dixon, and plaintiffs say he gave them his promissory notes say he gave them his promissory notes and the promissory notes are considered asserting the constant of the constant o of defendant A. E. Dixon, and plaintiffs say he gave them his promissory notes as collateral security for payment by other defendants of the contract price. The defendants A. E. Dixon & Co. say that they never made any contract with plaintiffs; that William Dixon made and is alone liable on whatever contract was made. They allege that the father intended to made a present to the son of the catalogues, but after

the father intended to made a present to the son of the catalogues, but after they were furnished became embarrassed and is now unable to pay for them. Wallace Nesbitt and T. P. Galt for plaintiffs; W. R. Smyth for defendants. Judgment was reserved.

In Plumb v. Imperial Loan Co., a witness was examined to enable him to return to New York, and a day is to be settled between counsel, convenient for the learned judge, for the trial to be continued. Wallace Nesbitt and James Ross for blaintiff; Watson, Q.C., and T. T. Rolph for defendants. The court then rose.

Henry A. King & Co. received the following despatch to-day from Chicago:
Wheat opened weak and lower this morning, but it soon recovered itself and held steady around 59. Northwest receipts, 1,-136 cars, an increase of 453 cars over last year. Primary receipts continue very heavy. Minneapolis claims to have received the enormous quantity of 13,016,000 bushels of wheat in October. The signal service reports some rain in the winter wheat belt, and prospects for more. The demand for cash wheat for Buffalo and other eastern points has been heavy, and as much as three to four cents premium over the December price. We learn the winter grades in New York are held at five cents over the December. Sellers of wheat are not rampant bears yet. There is a healthy knowledge of the fact that these showers may not greatly affect the crop unless continued. The condition of the crop sown, and the decreased area in wheat presents a serious question respecting the next crop, and it won't do to suppose a little rain, and mostly local at that is to change it. War rumors and good buying by two prominent operators started the advanced which railied the market to 60c. Several good-sized lines of short wheat were covered and added more strength to the market. Five loads of wheat were taken for export to-day. WYATT & CO (Members Toronto Stock Exchange) Orders executed on Canadian and New York

McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago:
Wheat opened a shade below yesterday's closing, but with light offerings worked up to 594c, weakened to 58%c to 58%c, from which it advanced rapidly to 59%c to 60c. The strength was due to report of lower consols and serious European political Mr. Score when last over in Europe purchased for spot cash the finest and highest class man clearances were less than 600,000 bushels. for spot cash the finest and highest class ma- Clearances were less than 6 Wheat receipts during Oct market have been 8500 cars Wheat receipts during October in this market have been 8500 cars, nearly three times as large as they were a year ago and 50 per cent. larger than October, 1893. The Price Current was bullish in its report on drought, but it is behind the news. With a lack of confirmation of war rumors wheat will sell off again.

Corn firm, helped some by the wet weather prospects. There was some desire among October shorts to get covered up, this being the last day of the month. Cables were steady. Samples were '4c to '4c higher. Seaboard clearances were 221,000 bushels. Scarcity of freight room east of Buffalo is embarrassing corn shipments for the moment.

Provisions opened easier and railied a little in sympathy with the strength in grain markets. On the hard spots near the closing leading packers sold quite freely and the final trades showed but little change from yesterday, ribs and pork being a shade higher, while lard was easier. The cash trade was poor and this fact if it continues will largely increase the speculative offerings by packers and start us off for another decline.
