Dear Sir,—I myself and readers have not by this time become completely tired of Brookville, I trust that you will allow me space for a few remarks in reply to an article of Mr. John McKeune's (the present Reeve of the Township) which appears in last week's Guide and News. In the first place, allow me to say that I think it is much to be regretted that a gentleman placed in such a responsible position should lend himself to the dissemination of reports of its financial condition which are so grossly untrue and spreading incorrect reports of its financial condition really injure the Township and the interests of its citizens. WARWICK ITEMS.
Since you heard from me last we have some changes here. Our new shoemaker has left to work in London. The cause of leaving is said to be on account of this and who in also his landlady, not using him well.
Our population increasing nevertheless, three births lately in our town.
Our wagon maker, Mr. Humphries, is pushed hard to fill his orders for wagons and buggies. His name as a good and cheap mechanic has so extended, that he gets orders from many surrounding towns.
Railway matters are again talked over since the strike has been made in Arkansas, and I doubt not if the Grand Trunk Co. ran a branch from Thirford to Petrolia, by way of Arkona, Warwick village and Elton road works, it would pay well, and the farmers around here would subscribe a liberal bonus towards it in fact I heard one farmer say he has here saying he would subscribe \$500.
Weather keeps cold, and raw just now, and against an early spring just now.

Reply to Mr. McKeune.
To the Editor GUIDE and NEWS.
Dear Sir,—I myself and readers have not by this time become completely tired of Brookville, I trust that you will allow me space for a few remarks in reply to an article of Mr. John McKeune's (the present Reeve of the Township) which appears in last week's Guide and News. In the first place, allow me to say that I think it is much to be regretted that a gentleman placed in such a responsible position should lend himself to the dissemination of reports of its financial condition which are so grossly untrue and spreading incorrect reports of its financial condition really injure the Township and the interests of its citizens. WARWICK ITEMS.
Since you heard from me last we have some changes here. Our new shoemaker has left to work in London. The cause of leaving is said to be on account of this and who in also his landlady, not using him well.
Our population increasing nevertheless, three births lately in our town.
Our wagon maker, Mr. Humphries, is pushed hard to fill his orders for wagons and buggies. His name as a good and cheap mechanic has so extended, that he gets orders from many surrounding towns.
Railway matters are again talked over since the strike has been made in Arkansas, and I doubt not if the Grand Trunk Co. ran a branch from Thirford to Petrolia, by way of Arkona, Warwick village and Elton road works, it would pay well, and the farmers around here would subscribe a liberal bonus towards it in fact I heard one farmer say he has here saying he would subscribe \$500.
Weather keeps cold, and raw just now, and against an early spring just now.
