

STANDARD

The Nation's Pride.

It's a "Daisy," that's what they all say; and do you wonder? Not if you ever experienced one of our high grade, light-running "Standards."

The best is always the cheapest. No money wasted on repairs, etc. Tire wheel weighs only 22 lbs., and will carry over 200 lbs. Write for catalogue and testimonials, free.

The DREXEL LIGHT.

6 feet of gas per hour in an ordinary burner will produce from 18 to 20 candle power of light.
 3 feet of gas per hour with a Drexel Light will give 60 to 70 candle power of light.

THEREFORE:

1 Drexel Light gives more light than 3 ordinary burners at one-half the cost of gas or 6 times as much light at the same cost as 1 ordinary burner.

At Montreal the Drexel Light costs only 12 cents per week to run, or less than a coal oil lamp.

Duration of Drexel Mantle: 900 to 1,000 hours.

The Drexel Light produces no ghastly greenish hue, but an absolutely pure white and steady light.

We keep on hand a selection of pretty GLOBES and SHADES which we sell to purchasers of our light at cost.

Maximum Light at Minimum Cost.
