

**A RAILWAY TO CHINA.**—S. B. Rogers, of Nant-y-glo, has published a pamphlet on the practicability of constructing 10,000 miles of railway through Europe and Asia and thus connecting London and Paris with Canton and our East India possessions, and all the great cities and provinces on its route. The route proposed is by Paris, Munich, Vienna, Belgrade, and Constantinople; thence through Syria, Persia, Beloochistan, and Scinde, to Oodipoor, Calcutta, through the Birman Empire, and the north part of Cochin China, to Canton.

**AMERICAN SLAVE TRADE.**—Three thousand new Africans are imported annually through Texas into Louisiana, &c. feloniously, according to United States law. Fifty thousand native American citizens, some of them whiter than their masters (and this class of orthodox colour is constantly increasing), have been, for a number of years past, bought and sold like beasts, in the State south of Pennsylvania, feloniously, according to God's law. Of this internal slave trade, Washington, to which you send, Christian reader, your representative, is the metropolis.—True Wesleyan.

**DREADFUL ACCIDENT AT BRUGES.**—A fearful accident happened last week, at the Madeleine church, Bruges. One of the priests while performing mass, was suddenly struck to the ground, by the falling on his forehead, of the marble head of an infant Jesus, which had become detached from its body. Fracture of the skull and a severe wound, were the consequence to the unhappy clergyman, who died in great agony.

The great comet of 1264 and 1566 is expected by astronomers, to re-appear at the latter end of this or the commencement of the following year. March 10, 1848, is considered the most probable period. The nodes of the comet's orbit lie very close to the earth's path.
