

HALIFAX MEDICAL COLLEGE.

THE TWENTY-SECOND SESSION of the Halifax Medical College will be opened on **Monday, November 3rd, 1890.**

The regular order of lectures will begin on that day and will be continued during the six months following.

The College building erected for the special purpose of medical teaching is in every way fitted for the object in view. It is situated in an open, airy locality, in close proximity to the Victoria General Hospital and the new City Alms House. The lecture room, dissecting room, etc., are well lighted, warmed and ventilated, and are fitted with appliances for imparting knowledge in the different subjects of medical education.

Students have access also to the Halifax Dispensary where they have an opportunity of seeing daily cases of such diseases as are usually treated in the different departments of such an institution.

Certificates of attendance on the various courses are accepted as qualifying candidates for examination before the licensing bodies of Great Britain and Ireland, and the Medical Schools and Universities in Canada and the United States.

The Course in Pharmacy has been re-established and regular lectures will henceforth be given in the different subjects of the curriculum.

For Annual Calendar and all information, address

DR. LINDSAY,

Secretary of the Faculty.

KENNICOTT & CO., Medical Publishers' Agents.

All British and American Medical publications obtained with greatest despatch, and generally at a considerably less net cost to purchasers than if they ordered individually from the publishers.
