Why the N. I. E. Corset is so Popular.

J. B. A. Lanctot, 152 St. Lawrence St.

First—It can be changed on the instant from tight to loose fitting and vice versa while on the person.

Second—It never needs new linings. They are unbreakable.

Third—It needs no "breaking in," but fits perfectly from the first. Self-adjusting Back with Independent Top and Bottom Lappings.

Fourth—The top and bottom facings work independently of each other and are separately adjusted.

Fifth—The N. I. E. gives that freedom to the body which secures the outlines of grace and beauty as no other Corset or Waist can do.

Sixth—The N. I. E. has no ugly ridge in the back, as in the ordinary Corset, but has a delicate not found in any other Corset or Waist in the world.
