### Mercantile Summary.

FROM some parts of the Eastern Townships  
come complaints that rust has affected both  
wheat and potatoes.

At Quebec and Point Levis they are pre-  
paring for an active winter in ship-building.  
Most of the yards will have one or more ships  
to build.

THE Royal Mail line of steamers, running  
between Hamilton and Montreal, have laid up  
three out of their seven vessels in winter quar-  
ters, in the former city.

THE value of the September imports at the  
port of St John was \$604,161, against \$1,204,190  
in the corresponding month of last year. The  
decrease is in the proportion of less than one  
half.

A NEW elevator has been erected at Portland  
by the Grand Trunk Railway Company. It  
possesses several facilities for the rapid trans-  
shipment of grain, and will doubtless prove of  
material advantage to the road.

THE annual loss to the United States Gov-  
ernment by postage stamps being fraudulently  
used over again after being obliterated, is esti-  
mated (we must think erroneously) at a million  
dollars. No ink has yet been discovered which  
clever rogues cannot remove from the stamp.

It is asserted that strong evidence will be  
forthcoming before the Fisheries arbitration be-  
tween Canada and the United States under the  
Washington Treaty, to show that Canada has a  
right to compensation amounting to seven mil-  
lion dollars, for the disposal which has been  
made of her fisheries.
