WORK EXECUTED IN ANY PART OF CANADA

Send for large illustrated Mantel and Tile Catalogue.

Canada Plate & Window Glass Co.

41-47 Richmond St. E., TORONTO

DUNLOP ANCHOR TILING

Notice the design of the pieces. They are uniform in size and fit together with absolute precision.

The pieces are not moulded separately but stamped out of semi-cured rubber sheeting and afterwards finally cured and hardened. This method of manufacture cheapens the cost of production.

"Anchor Tiling" is laid, without cement, in a variety of tasteful and harmonious designs. It is water tight and sanitary and permits ready repairs in case of breakage.

Catalogue to
any address

Giving data as to number of pieces to the square foot and showing designs in colors for corridors, in hotels and public buildings, stores, boat decks, libraries, etc.
