

1.3 Precursors 1/ in bulk 2/

Scientific chemical name/ 3/ Structural formula 4/	Quantity (metric tons)	Number and size of containers
<p>Precursors for unitary systems</p> <p>Components for multicomponent systems 5/</p>		

1/ Identified in accordance with approaches to be worked out in the context of Article II.

2/ Some delegations did not consider this table necessary.

3/ In accordance with the IUPAC (International Union of Pure and Applied Chemistry) Nomenclature.

4/ Different views exist whether it is necessary to state both the scientific chemical name and the structural formula in order for the declarations to be unambiguous.

5/ Some delegations suggested that multicomponent chemical weapons should not be declared as a special category in a separate table.
