INVEST IN CANADA ... and Efficient Transport Linkages Tying North America with Asia and Europe

- A reliable and efficient transportation system is key to effective participation in global supply chains.
- In October 2006, Canada has launched the Asia-Pacific Gateway and Corridor Initiative, an unprecedented alignment of public and private sector investments to strengthen Canada's position as a fast, efficient and secure gateway between North America and Asia.
- These investments have facilitated the flow of people, goods and services across Canadian rail, roads, bridges and through our ports and airports.
- Sailing times from Canada's Atlantic and Pacific deep-water ports are up to two days shorter than other North American ports.
