

STYLE C

Double Table

DESCRIPTION

THE cut on opposite page represents our Double Table, and is exactly the same in every particular as Style B, except that it is double instead of single. It enables a draughtsman and his assistant to work together. It has a cabinet in the centre between the tables, with drop door to lock all drawers at once. The drawers are fitted with movable tool trays, plush lined, and can be lifted out or in as desired. Each table is fitted with all attachments, &c., same as Style B. Made in solid oak, rosewood or mahogany finish.
