

DIRECTIONS

FOR TAKING

Mother Seigel's Curative Syrup.

DOSE — FIFTEEN TO THIRTY DROPS, two or three times a day, in a wineglass of water immediately after eating.

Mother Seigel's Syrup is put up in a highly concentrated form, the full dose being thirty drops (half a teaspoonful), and each 60c. bottle contains sixty average doses, being about one cent per dose.

The quantity may be regulated by the patient, who will bear in mind that sufficient needs to be taken to operate on the bowels two or three times each day. The blood will thus be purified, the sweat-glands of the skin will be opened, and the flesh made soft and healthy as an infant's. The kidneys and liver will do their duty, and all humors of the blood

will be driven out of the system, and the body purified and restored to a sound and healthy condition. The medicine must be taken *instantly* after eating, so that it will become mixed with food while in the stomach.

Commence by taking ten or fifteen drops three times a day *instantly* after eating, in a little cold sweetened water. It is best not to take Mother Seigel's Curative Syrup on an empty stomach. If this does not give relief, increase the dose to thirty drops, always to be taken *instantly* after eating, so that the Syrup may become mixed with the food while being digested. It is essential that the bowels be made to move freely every day, and if the above doses of Syrup be not sufficient to effect this, take one to four of Mother Seigel's Operating Pills at bedtime. It is better to take the Pills than to increase the dose of Syrup.

THE RETAIL PRICES OF THESE MEDICINES ARE AS FOLLOWS :

MOTHER SEIGEL'S SYRUP, - Per Bottle, 60 and 30 cts.
