Strong baking powder is needed

GOVERNMENT Standard flours are coarser and heavier than the flours you have been using for years, and they require a strong, reliable leavening agent.

Egg-O is a pure, strong, doubleacting baking powder. Its first action occurs in the mixing bowl when cold water or

milk is added. Allowing the

dough to stand for 15 or 20 min-

utes will give better results, and

when you put your baking in the oven Egg-O will continue to rise, and you will have no trouble getting light bakings.

You can use sour milk, sweet milk, buttermilk or water with Egg-O-a different and better baking powder.

Baking Powder

Egg-O Baking Powder Co., Limited, Hamilton, Canada
