VIBORG MANIFESTO SIGNERS SENTENCED

67 of Them Must Serve Three Months' Imprisonment—Terms Commence Jan. 20.

ST. PETERSBURG, Dec. 31.—The trial of 169 members of the first douma, who signed the Viborg manifesto, was concluded to-day. One hundred and sixty-seven of them were convicted and sentenced to three months' imprisonment, while two were acquitted on the ground that they had signed under misapprehension. The sentence carries with it the loss of all political rights.

M. Ramischwili, who already has served more than three months' preliminary imprisonment, will be immediately set free. Unless an appeal from the decision of the court is taken, the sentence will take effect beginning Jan. 20, until which time the former deputies will remain at large without bail.

RECEPTION AND BANQUET.

President of Massey-Harris Co. Guest at Pleasant Function.

The home-coming of the Hon. L. Melvin-Jones, president of the Massey-Harris Co., after a three months' trip in Europe, was the occasion last night of a reception and banquet, tendered to Mr. Jones by the directors of the company, who took this occasion of bringing together the heads of the various departments in the offices and factories, including the foremen from both Toronto and Brantford works. Nearly 100 sat down.

C. D. Massey, honorary president of the company, occupied the chair.

J. Kerr Osborne, vice-president, proposed the health of the president, which was replied to at length by Mr. Jones, who related his experiences on his recent trip, which extended far into Russia, and which resulted in the securing of some very large orders for machines to be used in Siberia, a part of the world which is practically new ground to the Massey-Harris Co.

Mr. Jones took occasion to say much that was practicable as to the requirements in agricultural implements of the various countries he visited, and also as to the great responsibility that rested upon the foremen and employes themselves to see that only the best of material and the best of work entered into the construction of machines that are not taken out of the many "jobs" into which they are put in the factories until they reach the farms many thousands of miles in the interior, and often many miles from a railroad.

In addition to the directors and employes of the company there were present as representing the shareholders Dr. Elmore Harris of this city, Lloyd Harris and W. S. Wisner of Brantford, and J. D. Patterson of Woodstock.

Use Connell's Coal.

We cannot give you a poor grade of coal, because we don't handle it, but if you are looking for the best hard coal sold in the city, come to us. We mine our own coal, and therefore can sell at the exceptionally low price, $6.50 per ton. The Connell Anthracite Mining Company, Limited; head office, corner Queen and Spadina-avenue.

taught all the politics they knew by himself.

"If there is anything I want for the people, you can guarantee I'll stay on the job and get it somehow," he declared as he discussed the power by-law, and his record in the legislature. He had been fighting for years for cheap power and other public advantages. He had been fighting the electric ring and the gas company, and that was why The Globe opposed him now..

He told the audience that he thought they would be able to get together on the Electric Light Company's plant after the bylaw was passed.

Geary at Ayre's Hall.

Mayoralty Candidate Geary addressed 150 of his supporters in Ayre's Hall last night. The meeting was called for the purpose of arranging for the manning of the polls to-day, and most of the evening was taken up with that work. Thos. Gearing presided. He said the real fight was between Geary and Oliver, and that the Oliver vote in Ward 2 was the most to be feared. It was not a political struggle, tho Mr. Oliver had issued a card appealing for votes as the Liberal candidate.

Mr. Geary said he relied on the quiet, solid vote of the citizens. There had been a tremendous slump in the past two days from two of the real contending parties to himself. He said the people would not be deceived by the candidate who laid his whole bulk on the power platform. He esteemed greatly the support of such men as Cecil B. Smith and A. C. Pratt, M.L.A., who had given a great deal of study to the power question.

Dr. John Noble and E. Strachan Cox had charge of the organization work for to-day's battle at the polls.

A Freak Bet.

There may be a funny sight along Queen-street to-morrow afternoon..

A bet has been made by T. H. Freeman, a barber, at 1206 West Queen-street, and G. R. Coboy, waiter at the Hotel Gladstone, that if Oliver is elected mayor, Coboy will wheel Freeman in a wheelbarrow along Queen-street to Yonge, down Yonge to The World office, leaving Hotel Gladstone at 2 o'clock Thursday afternoon, and if Nesbitt is elected Freeman will wheel Coboy. Fred Donovan of Foxley-street will furnish the wheelbarrow and referee the bet.

Up to the Retail Merchant.

E. M. Trowern, as secretary of the Toronto branch of the Retail Merchants' Association, has issued a statement, saying: "For years in Toronto the retail merchants have been paying the big end of the Toronto Electric Light Co.'s receipts. They have been the largest users of light and they have received very little consideration from the company. Most of the large public buildings and a few of the very large retail stores produce their own light, which they claim costs them about half what they would have to pay to the Electric Light Company. This makes competition all the keener and adds to the expense of doing business. But, notwithstanding that in the aggregate the retail merchants pay over three times what all the other classes pay, and in so doing they help to lighten up our dark streets with electric signs and window displays, they are charged a higher rate than those householders who use little and who are scattered about at long distances from one another, and which costs the company more to reach. At every turn the retail merchant has had to pay a handsome price to secure light to exhibit his goods, and the company, instead of regarding the merchants as their best friends, seem to have regarded them as creatures for their convenience, and looked upon them as the right class to charge high rates to. When complaints have been madb of the high rate charged, they offer a reduction by adding that they will require a five-year contract, which is evidence on the face of it that the rate could be made less if they so desired."

Vokes in Riverdale.

A decorous and uneventful meeting in the bicycle club's hall on Broadview-avenue marked the close of Miles Vokes' campaign for the mayoralty. The hall was well filled, the speakers had an attentive hearing and the candidate was loudly applauded. Mr. Vokes admitted that the mayor could do very little unless he were supported by a good council, and in respect to trades unionism said that when a contractor he had invariably employed union men, while the Star Foundry Co. had been the first in the city to give 10 hours' pay for 9 hours' work.

R. J. Dingman said he had been assured that owing to the financial magnitude of impending problems a dishonest mayor could make a million in the next three years.

Dr. Watson conveyed the information that when the street railway system was taken over in the '90's, Mr. Vokes was in favor of keeping the direct control of the system in the hands of the council, but was overruled by his colleagues.

George L. Wilson held that the mines, as well as all public utilities, should be operated by the government.

E. P. Pearson was chairman.

At Euclid Avenue Hall.

A couple of hundred ratepayers listened intently to Ald. Geary at Euclid-avenue Hall last night, discuss public questions.

Other speakers were J. T. V. May, Dr. O'Connell and Ed. Randall. John Tyler, president of Ward 5 Conservatives, presided.

THE LATEST DISCOVERY.

A Substitute for Champagne.

During the slight depression now existing in the market many persons heretofore accustomed to indulging on New Year's Day in champagne feel they must debar themselves. To such, the new discovery of an excellent substitute for champagne will be of interest, the following is the recipe: Get some "Fisherman" Scotch or rye whiskey, place some quart bottles of radnor water on the ice for several hours before uncorking, place rye and Fisherman in different claret jugs, filling up with radnor water. The mixture, served in thin hock or claret glasses, will be just as much appreciated as champagne.

IMMIGRANTS COMPLAIN.

Tell Chatham Board Kind of Work They Want.

CHATHAM, Dec. 31.—When the Chatham Board of Trade filed up to their chambers in the market building last night they found their quarters already taken possession of by between 25 and 30 immigrants. These men claimed that they could not get work, and seemed to take a great deal of pleasure out of abusing this country. They said that they were told before coming out here that they would get a shilling an hour for every hour they worked. On arriving here they found that a shilling in this country only amounted to twelve and one-half cents, whereas they understood it would be twenty-five cents, the same as it is in England. When some of the board suggested that these men look for work on the farms surrounding Chatham they became quite indignant, and said that they did not come to this country to work on farms. They said that the manufacturers of Chatham would have to hire them before spring, or there would be a small revolution in this section of the country.

The Board of Trade had to abandon the business of the evening to listen to the Englishmen's complaints. The board did not decide on any definite action.

AN INCIPIENT RIOT.

Crowd Attempts to Release Prisoner From Military Guard.

Private Joe Green, R.C.D., was engaged last evening in seeing out the old year in such a hilarious manner that Patrolman Robson (207) found it necessary to lock him up in No. 1. The fort was notified and Corporal Mansfield with a detail of men came and took him in charge. They were passing down Bay-street when the Gayety let out. The crowd immediately surrounded the prisoner and he broke away from his captors. A continuous running brawl then occurred, the crowd continuously growing as they moved down Bay from Richmond to King. The detail, with the assistance of two patrolmen, succeeded in getting the prisoner into the Mall office. Green, who is a Frenchman, and has a personal feud against Corp. Mansfield after calling Corp. Mansfield several epithets, struck Mansfield repeatedly in the face before he could be overpowered and handcuffed. After considerable excitement he was taken to the fort in a cab.

Local Option Creates Dives

Ex-Alderman W. H. McClarty, a substantial merchant of Owen Sound, says: "Local Option has not lessened drunkenness in Owen Sound,—but it has created dives and it has been the cause of lessening trade." Last year, with seven months of Local Option and five ot license, Owen Sound had 362 police court cases. In eleven months this year, under Local Option, it has had 510 police court cases. "I saw 75 drunken men the other evening on a walk through two of our streets."

Your streets will not be pleasant for women after dark if Local Option carries your town.

211

Banker J. P. Raven, of Owen Sound, says: "There have been more failures here in 19 months of Local Option than there were in the seven years previous. Property has decreased in value from 20 to 25 per cent."

Naturally. For under license Owen Sound had but eleven liquor sellers, closely restricted. Under Local Option there are to-day SIXTY places selling liquor there,—with no restrictions.

Local Option takes the traffic from the grip of the law and delivers it over to private greed. Will that suit YOUR town?
