

Tea Time Talks

It's always tea time when you are tired or thirsty.

The Tea Plant

reaches its highest perfection in the climate and soil of Ceylon. The plant matures in four years in high altitudes and the leaves are plucked week by week the year 'round.

The plucking is done by women and the light touch of their fingers is the only touch that the human hand gives to "Salada" Tea.

When you open the air-tight lead package of "Salada" you inhale the fragrance of tea just as we should serve it if you were our guest on a Ceylon plantation.

Ask your grocer for "Salada" Tea or send for a free trial package which makes 25 cups of delicious tea. We will mail it to you without charge. Say whether you prefer Black, Mixed or Green Tea and the price you pay per pound.

Spring Seeding is Well Under Way—Earls Court Wants Fire Protection—Notes.

NORTH TORONTO, April 10.—(Special.)—In all the town churches to-day there were large congregations, the delightful weather serving to swell the attendance.

In Eglington Methodist Church, where Rev. Mr. Balfour held a receptionist meeting following the special evangelistic services, no less than 21 new members were received. The evening service, especially, was full of interest, and the occasion was one long to be remembered.

In Eglington Presbyterian Church, and in St. Cleons, the congregations were especially large and full of interest.

For the first time in a long while, Ex-Assessment Commissioner J. M. Whaley is taking short drives and gentle exercise, and shows marked improvement. Councilmen are taking the occasion largely to the dimensions of his conservatories.

The next "mothers' meeting" of the Eglington Methodist Church takes place in the Sunday school room on Wednesday, April 13. Let the mothers attend.

On Sunday evening, April 11, in Eglington Methodist Church, Rev. Mr. Ono, a Japanese student of Victoria University, will give the subject, "The Kingdom of God is Within You."

Don't forget the concert in the Davilleville Methodist Church on Friday evening, April 15, at 8 o'clock, by the Clinton street Methodist Church choir.

There were the usual number of property hunters looking for choice residential sites on Saturday afternoon, and a number of sales were effected.

Librarian Hogins' report shows that for the month of March the public library was opened 14 times, number of tickets, 215; increase during month, 57; number of books exchanged, 58, with the total number of volumes, 75.

The report of the committee of young gentlemen who volunteered to take a census of the Bedford Park district with respect to the establishment of a public school, have submitted their report. It shows that there are 40 children, and between 4 and 5 about 20. An analysis of the attendance at English school shows 10 absentees altogether.

A report, which is, however, unconfirmed, is to the effect that the old Selder farm has been sold and will be immediately cut up into building lots. Allegedly the price of the property is credited with getting \$16,000 to relinquish his lease, which has yet five years to run. It is not clear whether the town council will revert to the old-fashioned system of street sprinkling, or whether the present one, which was tried out late in the fall, will be reintroduced.

What Kind of Overcoat Do You Intend to Get This Spring?

ROSS SENTENCED TO HANG MORAN TO SERVE 10 YEARS

Justice Mulock Imposes Penalties at North Bay—Gouin, Guilty of Assault, to Be Sentenced Later.

NORTH BAY, April 10.—(Special.)—Deplored the seeming growth in the disregard for law evidenced by the fact that, in the past week, three murder charges were tried by a jury, but in only one was the capital crime held proven by the jury. Chief Justice Mulock Saturday night imposed sentences as follows:

WALTER ROSS, for the murder of his companion prospector, Percy Parkinson, to be hanged on Friday, May 20.

JAMES MORAN, for manslaughter, in causing the death of Wm. Dyon in a fight—10 years in penitentiary.

SAUL GOUIN, acquitted of murder, but convicted of assault and doing bodily harm—sentence postponed.

Early Saturday the jury trying Saul Gouin, accused of shooting Mary Smith in a shack near Cobalt two years ago, returned on acquittal after two hours' deliberation. At a previous trial the jury disagreed with ten for acquittal. A hum of satisfaction thru the court was answered by the declaration of G. T. Blacklock, K.C., crown prosecutor, that the verdict was a travesty on British justice.

An unusual feature of the case was the stalling of the verdict by Judge Mulock until certain portions of the evidence, wrongly interpreted by the crown, had been re-read. He asked the jury to again retire for consideration. This they refused to do, stating that all the evidence had been carefully considered, and a verdict been arrived at.

When the court resumed on Saturday, Gouin was placed on trial charged with wounding with intent to kill and wounding and causing grievous bodily harm. He was convicted on the latter charge, the jury being out two hours.

Justice Mulock, in passing sentences, made scathing denunciation of Gouin, whom he charged with being guilty of coldblooded murder, without a shadow of reason or excuse. He sent him back to jail until the autumn assizes, when he will receive sentence.

Young Moran's counsel, G. L. T. Bull, made strong plea for clemency, backed up by petitions from leading citizens of Ottawa, and strong letters reciting the prisoner's good character and the fact that he had been left fatherless at five years, and had been forced to make his own way in the world since he was ten. Prosecutor Blacklock seconded the request for mercy, in a strong plea full of charity for the prisoner, and the judge concurred in both, but said that the interest of justice demanded the sentence.

None of the prisoners had anything to say except thru their counsel. Moran being most affected apparently, seeming to be dazed after the sentence, and, standing with his head down, had to be told repeatedly by the constable to take his seat.

Gouin was visibly affected by his position, but Ross' sentence, as a matter of emotion, and walked firmly back to his cell.

The scene in the crowded courtroom was one of intense interest, as a large audience listened to Justice Mulock's solemn and charitable remarks as he sentenced Ross and Moran, and his denunciation of Gouin as a murderer for whom no sympathy could be extended, but to whom a large measure of mercy had been extended by the various jurors who had considered his case.

He deplored the seeming growth of disregard for the law, and hoped that, in this district, the lesson of this court would result in men better controlling their passions and living good and true lives.

NEW TORONTO

Large Variation in Prices for Sewerage Work in Township.—NEW TORONTO, April 10.—(Special.)—A special meeting of the Etobicoke Council will be held on Thursday to consider the tenders for the sewerage system which will later be installed. It is gratifying to the council and property-owners that they have been enabled to secure the services of T. A. Murray, C.E., and his associate partner, McCallister, to supervise the work. Out of the ten firms tendering on the work a very wide disparity of prices exists, the figures ranging from \$11,000 down to \$480.

SEEDING WELL ON THE WAY.—The past week has been a busy one among the farmers of York County, and on many of the well-tilled lands practically all the grain has been sown, with the possible exception of peas, which the early season has dried up the land, so that it is difficult to come across a single field which has not been sown for cultivation. The ground is fine and loamy, and the work has been done by the men and women and teams. By the middle of the week there will be little left to do, but the county is in the shape of a green sea. Fall wheat and grass seeds look well, and a warm rain would be beneficial to each.

YORK COUNTY NOTES.—J. J. Griffin, a former Markham Township farmer, and later Cobalt mining man, has bought 250 acres of land in Pickering, three miles west of the Town of Whitchurch, and has already let the land to the Farmers' Union to be planted thereon. The barn will be 60x125 feet, and will be the largest by all odds in Pickering Township.

Newmarket is experiencing a real building boom.

Whitchurch Township Council will appropriate enough money to pay for 200 tons of crushed stone to macadamize Wellington-street from the town limits to the second concession.

Mrs. Independent of a new telephone will be installed this year in North York, and will be a grand new postoffice all its own.

English Cotton Spinners to Reduce Wages.

MANCHESTER, England, April 10.—The master cotton spinners' federation have voted in favor of a five per cent reduction in the wages of operatives, and have called a joint meeting of employers and spinners to discuss the matter. The step was taken owing to the depression in the cotton trade. It is believed that the operatives will strongly resent the proposition.

Earls Court

Big Thickly Congested District Has Inefficient Fire System.—EARLS COURT, April 10.—(Special.)—The tremendous importance of a more modern and efficient system of fire protection over the whole of the big and rapidly expanding Earls Court district is becoming more and more manifest. The present conditions as they exist are a menace alike to the lives and property of hundreds of owners and the city cannot begin to cope with the work of installing better protection.

The only means of notifying the city fire brigade is by telephone and few of the residents in this district, as yet, have this historic high-priced luxury installed in their homes.

The nearest fire box is a mile south of St. Clair-avenue, and with the inflammable nature of many of the structures in the Earls Court district, enormous damage might and undoubtedly will be caused in the near future if some radical means be not made to cater to the portion recently annexed. The York Township Council, too, might well deal in a generous spirit with that thickly settled part lying outside the city limits.
