THE WAR NEWS.

Lord Kitchener told the House of Lords yesterday that the advantages which superiority in numbers and extensive war preparations had given Germany had diminished, while the Allies "are daily increasing their resources in such a way as to enable them to prosecute the war to a triumphant end." "About two years ago, I found my health in a very bad state. My kidneys read of some good remedy, and having seen "Fruit-a-tives" advertised, I decided to try them. Their effect, I found more than satisfactory.

Their action was mild and the result all that could be expected.

The matter of providing equipment and supplies for the new forces which are being mobilized is also well in hand. His lordship regards the Russian victories over the Turks and Austrians as very important, but as even more important the check of the Germans in Poland. He speaks in terms of praise of the Canadian regiment at the front, and also of the Canadian contingent on Salisbury Plains. There is no hint or suggestion of a belief on the part of his lordship that the war will soon be terminated; and Lord Curson, who spoke for the opposition, expressed the view that if such people realised how much it meant to the small dealer to get in his accounts at this season, or for that matter at any season, they would cheerfully foregot would be reading and uttered an exclamation of impatience. "Doggone!" he cried, "Why can't people be more explicit?"
