

YANKEES NOW MOST LIKELY PENNANT TEAM

Only Sensational Upset Can
Keep Them Out

Home Runs Proved Particularly Effective in Yesterday's Games — Hornsby Brings His Total Up to 89 and Ties Williams.

(Canadian Press)
New York, Sept. 21.—Barring an upset of the most sensational order, the New York Yankees have clinched the 1922 American League pennant. By taking the second game of the series from Detroit, 6 to 5, while Washington blanked the St. Louis Browns, 5 to 0, the Yankees increased their lead to three and a half games. They can split even in their eight games and still finish no worse than in a tie for first place, if St. Louis wins all seven of its contests. Victory in five more games will give the title to the Yankees regardless of what the Browns do.

Pittsburg, pursuing what seemingly is a "rainbow chance" for the National League pennant, took the first of a three game series from New York, 4 to 1, but the Giants today were still four and a half game in front. Delving into the mathematics of the situation, Pittsburg can tie for the top by taking all nine of its games, if the Giants obtain only an even break in their twelve games. McGraw can now up the race by winning seven more games, regardless of his rivals' showing.

The Yankees were forced to call on their best to down Detroit in the second struggle. Bob Meusel dealt the decisive blow with a homer in the ninth, "Bullet" Joe Bush tamed the Tigers in the half of the ninth after they had tied the count of Shawkey in the eighth.

Southpaw Cooper of the Pirates and Hugh McQuillan of the Giants battled on even terms until the seventh when Bigbee delivered a homer that clinched the game for the invaders. Cooper displayed his versatility by slashing out another homer off Ryan in the ninth.

Rogers Hornsby's consecutive hitting streak was stopped by Grimes of Brooklyn in the first game of a double-header with the Cardinals after it had reached thirty-three contests, but the St. Louis slugger came back in the second game with a brace of home runs that brought his season's total to 89, tying Ken Williams of the Browns. The Dodgers answered the first, 6-1 and the Cardinals the second, 13-7.

Homers by Williams and Parkinson helped the Philadelphia Nationals take two slugging matches from the Chicago Cubs, 9 to 8, and 11 to 1, while Cincinnati scored a double victory over Boston, 9 to 3, and 6 to 0.

The White Sox climbed to within a game and a half of Detroit, in third place, by taking a hard fought twin bill from the Athletics, 1-0 and 9-5. Cleveland captured its second double-header in two days from Boston, 2-0, 4-0, and uncovered another rookie twirling star in Bedgoode, Giant recruit, who won the second contest.

HORSE KILLED ON MAINE TRACK

Thrown by Hopples, Strikes
Fence at Franklin County
Fair Races.

(Special to The Times.)
Farmington, Me., Sept. 21.—Stables from all over the state, including Aroostook county, were represented in the races at the Franklin county fair yesterday, twenty-three starters coming out in the three events. Admiral Black, which cleaned up at Bangor, Waterville and Lewiston, took the 2:10 class after dropping two heats to Alfred King, an Aroostook flyer. Billy Nelson had to go four heats with Modotte to take the 2:22 trot. Bob Waite had two heats of 2:22 mixed when it was called off because of darkness. The brown gelding King Inez was thrown by his hoppers and died from injuries when he struck the fence. Driver Gould was hurt, but not seriously. The summary:—

2:15 Mixed. Purses \$500.
Admiral Black, b. g., by
High Admiral (Smith) 1 3 3 1
Alfred King, bl. g., by
King Bellini (Nevers) 2 1 1 3

ST. JOHN BOY IS CLASS PRESIDENT

Honor for Paul Fraser at U.
N. B.—Asten to Coach University Football Team.

Fredericton, Sept. 20.—The Freshman class at the University of New Brunswick today organized for the year. Paul Fraser, of St. John, was elected class president, and William Crocker, of Albert, class treasurer. A football team will be organized in the class. Fraser also was elected captain of the team. The Rugby football season will open on Saturday next, when the teams of the Provincial Normal school and Fredericton high school will meet at the rotting park in an exhibition contest. Ralph McCready, of Sackville, is captain of the Normal school team, and Edson Daggett, of Marysville, manager. If possible, the Normal team will play outside matches, Moncton high school

ASTONISHING FACTS IN REGARD TO SUCCESS OF TANLAC ARE REVEALED

No Longer Any Mystery
Concerning Enormous Demand for Celebrated Medicine—Big St. John Drug-
gists Enthusiastic.

WHY SALES CONTINUE TO INCREASE YEARLY

True Reasons Are Given For
Its Record-Breaking Popularity—Two New Branches
Are Necessary and Foreign
Field is Entered.

The tremendous sale of Tanlac continues unabated, ever-increasing. Leading drug men throughout the United States, Canada and Mexico express amazement at the phenomenal demand and point out enthusiastically that nothing has ever equaled this unprecedented record.

Many who formerly were puzzled at the astonishing popularity of this medicine, and who were continually asking the reason for it, have now come to realize that Tanlac has gained the lead by merit alone, and maintains it by the unquestioned fulfillment of its claims. Millions of grateful users have rallied to Tanlac's standard unalloyed and have publicly endorsed it.

That the large druggists everywhere are still enthusiastic over this sensation of the trade is evidence by the tone of letters received with orders. W. A. Hoyer & Co., wholesale druggists of Denver (Col.), writing under date of July 17, state:—"We are submitting today our order for the fourth carload of your goods since April 1. Taking into consideration local conditions this demand is not only exceptional but alone in the record of sales for proprietary articles in this section."

The National Drug and Chemical Co. of Canada, Ltd., St. John and Montreal, state:—"Tanlac continues to lead the parade as our sales of proprietary articles go. We sold 239,640 bottles within the year."

Since the first of 1922 Tanlac has been moving at a rate of more than a carload

a day. The great modern laboratories at Dayton, Ohio, Walkerville, Canada, and Mexico City, have a combined output of 62,240 bottles a day, and even with this production it is almost impossible to keep up with the demand. In fact, the manufacturers are far behind in filling orders.

The rate of sales indicates that a new world record will be made this year, in the distribution of 10,000,000 bottles or more. Since Tanlac was first marketed in 1914 the total sales to date exceed 50,000,000 bottles, and this alone proves that the public confidence has not been misplaced.

Since the first of the year it has been found necessary to establish two big branch offices, one in New York and one in Los Angeles (Cal.), to take care of the ever-increasing demand for Tanlac in the American metropolises and the extreme western part of this country.

Also, the foreign field has been entered, with the most phenomenal success. Mexico now knows Tanlac as well as the people of the United States and Canada, and Cuba has received the celebrated medicine with enthusiasm. Tanlac is today a household word throughout North America.

And the reason is found in one word: Merit. No proprietary product could long survive the acid test of time and public trial if it does not possess value and produce actual and positive results. It cannot depend merely on whirlwind advertising and the "first call" appeal. Back of Tanlac's phenomenal record in the drug stores is Tanlac's success in producing results, and when this fact is thoroughly impressed there cannot possibly be any mystery in Tanlac's achievement in such a short time—the achievement of gaining the top of the heap, of holding undisputed leadership over all preparations of its type ever produced.

Tanlac has never been advertised as a cure-all or that it would perform unheard of wonders. The advertising has been clean, straightforward, and conservative. Actual facts and figures have been used, and the "first call" appeal, which has commanded the confidence of all in the conservative claims set out. The result has been that Tanlac are among the best in every community, capable of judging impartially and who carry weight in their statements.

These are the facts in Tanlac's success, unprecedented in the field of proprietary medicine. Tanlac is sold by all good druggists.

and the teams of the Interscholastic league being in prospect.

The eligibility question already has arisen in regard to Donald Currie, of the Normal school, formerly at Fredericton high school. Currie played a game of football with the Fredericton Baseball club several weeks ago. President A. W. Covey, of the maritime branch of the A. A. U. of Canada, has been asked to adjudicate upon the matter.

Jack Asten, of this city, has been definitely retained as coach for the University of New Brunswick Rugby team. He has been out with the squad several times, but his services were retained definitely today. Under his instruction U. N. B. defeated Mount Allison and tied Acadia at Wolfville last season. The Red and Black is out to repeat this season.

MATCHES SHOULD DECIDE WHO IS THE LEADING GOLFER

(New York Post.)

Those two thirty-six-hole matches scheduled to take place between Walter Hagen, British open champion, and Gene Sarazen, national title-holder, should settle for all time the question as to which of these two fighters is the greatest golfer of the age. The first thirty-six holes of this event will be played at the Ononquet Country Club at Pittsburgh on Friday, October 6, with the second match scheduled for the Westchester-Biltmore Country Club at Rye on October 7, the next day.

At Ononquet Sarazen undoubtedly will have a slight advantage as a result of his victory in the recent Professional Golfers' Association championship tournament held there, but at Rye the tables will be slightly turned, as there are few blades of grass on the Westchester course that Hagen is not familiar with.

The match will be for \$2,000. As October is late in the golf season and daylight saving will not be in force, the match will start promptly at ten o'clock in the morning and two o'clock in the afternoon. This will permit the players to finish before nightfall and to play a few extra holes in case of a tie.

TELLS DYSPETICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It comes as a liquid, milk or citrate and the bismarck form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

On the whole, I believe our love of professional football is the simplest and the purest form of hero worship that the world has ever seen. The name of a football club has taught some of us that the district in which we live, perhaps some place of mean streets and meaner houses, is really a place of moment in the affairs of the world, a place bearing a name to cheer and to follow.

I take off my hat to our football supporters. They are the future Napoleons of our Notting Halls.

WHY ENGLAND GOES "FOOTBALL MAD"

(London Express)
—The big ball bounces into the sports arena this afternoon, and once more Great Britain goes "football mad."

About a million people will be watching professional football this afternoon in England, Scotland, Wales and that Freehold undisciplined leadership over all preparations of its type ever produced.

Tanlac has never been advertised as a cure-all or that it would perform unheard of wonders. The advertising has been clean, straightforward, and conservative. Actual facts and figures have been used, and the "first call" appeal, which has commanded the confidence of all in the conservative claims set out.

The result has been that Tanlac are among the best in every community, capable of judging impartially and who carry weight in their statements.

These are the facts in Tanlac's success, unprecedented in the field of proprietary medicine. Tanlac is sold by all good druggists.

WIMBLEDON AND TENNIS HONORS

(London Times)

—Few of those who follow with interest the game of lawn tennis will share the doubts of some of our correspondents as to the lawn tennis championships of the world. These championships, three in number, were instituted at a meeting of international delegates held at London on March 1, 1913, when the championship on grass was placed under the control of the Lawn Tennis Association on behalf of the British Isles in perpetuity.

That right, we feel, should not be lightly surrendered, for it was conferred on this country only after mature reflection and a due regard to Great Britain as the Motherland of the game perhaps the most universally played in the world.

To every player, from Deauville to Tokyo and from Newport to Los Angeles and Sydney, Wimbledon is the home of lawn tennis, and it is the dream of every young player of merit to take part there in the world's tournament. With a noble history which is almost unrivalled in any other sport, Wimbledon is a true and fitting home for championships. We say this in no narrow, insular or unsporting spirit, and the records of Wimbledon are its own best testimonial, for it has drawn competitors from every corner of the earth.

The defeat of the present world's champion in America recently need not place him in a false position. Every champion has his "off days," and the vanquished of today may be the victor of tomorrow. Although it may be that America today is the undisputed home of lawn tennis champions, we cannot see that the holding of the world's championships in that country would bring her any greater honor, nor do we believe that an aspirant from California would prefer to play at Newport rather than at Wimbledon. Next year the supremacy may pass from America. Is the tournament to follow around the world the supremacy of the moment? We believe that few who love the game, whether in East or West, in Europe or in far Australia, have any desire to see the world's championship pass from its home in Wimbledon.

"I Was a Fright!"

"Nothing I Could Take Made Me Any Fatter."

"Up to the time I was seventeen years old, I believe that I was the most miserable and unhappy girl that ever lived. Honestly, I was a sight. I was the most ungainly looking creature you ever saw. I was thin and scrawny—straight up and down. My height was five feet nine inches and I weighed exactly ninety-one and three quarter pounds. No matter what kind of clothes I put on I looked like a fright. I was clumsy and awkward. I used to stand before the glass and study my features. I found I had a good nose, good eyes and a good mouth, but my cheeks were sunken and my face looked like a skull with a piece of parchment stretched over it. But nothing I could do or take made me any fatter. Men rarely even glanced at me. When they did, they merely gave me a casual, amused or pitying look—an expression which I am sure meant, 'why is a being like that allowed to large?' I used to lie awake at night for hours at a time wondering why there were so many beautiful girls in the world and I was so hideous."

meta friend of mine one day, Elsie W. and I hardly knew her. While she had never been as thin as I was, a year or more ago she ran me a close second, but when I met her she had taken on flesh and had developed into a fine handsome girl with one of the prettiest figures I had ever seen. I asked her what had caused the big change. She said, "Carnol. She told me she had been taking it regularly for the last three months and that from the first week of taking it she had begun to put on flesh. I was so encouraged by what she said that I couldn't get to the druggist fast enough. I bought a bottle and since then I have been taking it regularly. It has made the greatest change in me you ever saw. I now weigh 165 pounds and all my friends tell me what a wonderful figure I have and I know that I am admired."

Carnol is sold by your druggist, and if you can conscientiously say, "after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money."

Well, well, things are not really quite so bad as that. As is usual with your purist, he offers you a number of little facts, which are all correct in their way, but forgets the one big fact which explains and justifies them all. The great fact about professional football is that it provides the one great sense of romance in the lives of our average workmen.

On the whole, I believe our love of professional football is the simplest and the purest form of hero worship that the world has ever seen. The name of a football club has taught some of us that the district in which we live, perhaps some place of mean streets and meaner houses, is really a place of moment in the affairs of the world, a place bearing a name to cheer and to follow.

FORMER CANADIAN WOMAN CHAMPION LOSES AT GOLF

(Canadian Press Despatch)
Lambton Golf Club, Toronto, Sept. 20.—The surprises which featured the first round in the Canadian ladies' closed championship yesterday, were continued in the second round today when the number of survivors was reduced to eight. The Toronto and Royal Ottawa Clubs are the leaders with two representatives each while the other clubs still actively interested are: Hunter Valley, Hamilton, Lambton and Royal Montreal.

The biggest surprise of the day was the defeat of Miss Ada Mackenzie of the Mississauga Club, Ontario champion, and a former Canadian open title holder, by Mrs. T. F. Ahearn, one of the best lady players of Ontario, but who has not before been prominent in Canadian championships.

Mrs. Ahearn started off strongly, winning the first three holes but Miss Mackenzie had evened the count by the time they made the turn. Mrs. Ahearn again took the lead at the tenth and increased it. Miss Mackenzie lost the seventeenth and was one down at the

WIDER FIELD FOR KING'S TROPHY FOR CADET SHOOTING

(Canadian Press Despatch)
Ottawa, Sept. 20.—The much prized cadet rifle shooting trophy, the King George V. Challenge Cup, will be offered for competition on any government

owned or inspected rifle range in Canada, according to an announcement made today by the department of militia. This trophy was originally presented by His Majesty in 1913 for competition by teams of imperial cadets, attending the Canadian National Exhibition, Toronto, but in order to encourage cadets from all parts of Canada to take an interest in rifle shooting under service conditions, the directors of the Canadian National Exhibition have decided to place the trophy in the larger field. The directors have added ten silver and ten bronze medals to the trophy.

For Acidity or Bile
