BONES OF ANIMALS
TELL HISTORIC TALE

Chicago Scientist Unearthed
Valuable Data on Re-
cent Expedition.

CHICAGO, March 11.—What is be-
lieved to have been a prehistoric bat-
tlefield of monsters, that died in titanic
combat before the entrance of mankind
upon the world scene, has been un-
earthed high in the Bolivian Andes.
Professor Elmer Riggs, Chicago scien-
tist, who discovered the great fossil
beds in the Tarija valley, has found
evidence that opposing migrations of
North and South American animals met,
fought and exterminated each other
there.

Story of Migration.
Bones of hideous monsters that
roamed the western hemisphere from
1,000,000 to 7,000,000 years ago are
piled in confusion in the fossil beds.
Such fossil beds are not uncommon
but in the Tarija Valley skeletons of
North American mastodons, mammas as
large as camels, sabre-tooth tigers,
mammoth bears and specie of the
northern horse family were unearthed
among those of South American glyp-
todons and huge ground sloths, the
megatherium and mylodon.

In this fact the paleontologist senses
the story of the great migration, the
dead struggle before history's dawn.
Once Had Spiked Tail.
In explaining the presence of the
North American species in South
America, Professor Riggs, who told of his
discoveries in a letter to Field Museum
authorities here, advanced the geologic
theory that at one time Patagonia,
then the beginning of the South Amer-
ican continent, was separated from
North America. Then some great
earth movement created a land bridge
between the two continents, probably
by way of Florida, and over this bridge
moved the North American animal
migration seeking new hunting grounds
and pasture.

Beauty
A Gleamy Mass of Hair

35c "Danderine" does Wonders
for Any Girl's Hair

Girls! Try this! When combing
and dressing your hair, just moisten
your hair brush with a little "Dan-
derine" and brush it through your
hair. The effect is startling! You can
do your hair up immediately and it
will appear twice as thick and heavy—
a mass of gleamy hair, sparkling with
life and possessing that incomparable
softness, freshness and luxuriance.
While beautifying the hair "Dander-
ine" is also toning and stimulating each
single hair to grow thick, long and
strong. Hair stops falling out and
dandruff disappears. Get a bottle of
"Danderine" at any drug or toilet con-
tainer and just see how healthy and
youthful your hair appears after this
delightful, refreshing dressing.

WIPE TOWN OFF MAP

Judge Says Entire Village Must
be Moved to Clear Path For
Oil Industry.

CHEYENNE, March 11.—The town
of Layovo was literally wiped off the
map of Wyoming and its 1,200 in-
habitants were deprived of their homes by
a ruling of Federal Judge T. Blake
Kennedy, who ordered that the entire
village and its populace must be moved
to clear a path for the petroleum in-
dustry.
Public buildings, business houses,
homes, all must go, for Judge Kennedy
decreed that the Ohio Oil Company,
which leased the land on which the
town is situated from the Government
for oil development, is entitled to full
possession within sixty days from to-
day, the town having been established
without a legal basis.

Mrs. Alex. Foster, R.R. No. 2, Pro-

which settled on my lungs, and my
cough was so bad, at times, it seemed
as if it were tearing my lungs to
pieces. I sent and got a bottle of Dr.
Wood's Norway Pine Syrup and I got
relief after the first few doses, and by
the time I had finished the rest of the
bottle I was completely relieved of
both my cold and cough."

Says We Must Keep Feet Dry, Avoid
Exposure, Eat No Sweets.

Stay out of the damp ground, avoid ex-
posure, keep feet dry, eat no sweets of
any kind for a while, drink lots of
water and above all take a spoonful of
Jad Salts occasionally to help keep
down uric and toxic acids.
Rheumatism is caused by poison tox-
ins, called acids, which are generated
in the bowels and absorbed into the
blood. It is the function of the kid-
neys to filter this acid from the blood
and cast it out in the urine. The pores
of the skin are also a means of freeing
the blood of this impurity. In damp
and chilly, cold weather the skin pores
are closed, thus forcing the kidneys to
do double work; they become weak
and sluggish and fail to eliminate this
poison, which keeps accumulating and
circulating through the system, eventu-
ally settling in the joints and muscles,
causing stiffness, soreness and pain,
called rheumatism.

At the first twinge of rheumatism get
from any pharmacy about four ounces
of Jad Salts; put a tablespoonful in a
glass of water and drink before break-
fast each morning for a week. This
is helpful to neutralize acidity, remove
acid from the blood, and stimulate the
body waste, also to stimulate the kid-
neys, thus helping to rid the blood of
these rheumatic poisons.
Jad Salts is inexpensive, and is made
from the acid of grapes and lemon
juice, combined with lithia, and is used
with excellent results by thousands of
folks who are subject to rheumatism.

PORT HURON, Mich., March 11.—
After firing two bullets into the head
of his son, Ronald, 20 years of age,
William J. Hurley, local manager for
an insurance company and secretary of
the Hurley Tire Company, turned the
weapon on himself and fired a
bullet through his temple, dying in-

remained away from home Wednesday
night, and this appeared to enrage the
father. Going to the tire shop, Hurley
asked the youth to accompany him
home, and there the father demanded
to know why he had remained away
from home.
