

has been nobly sustained; more than £1,000 has been raised, which is about £300 over the preceding year. Four new Missions have been established, in each of which the prospects are encouraging. We have several openings presenting themselves, but we lack both men and means. We have now 14 Mission Stations; 20 Missionaries; 113 Congregations, and 1,137 Members. We have, during the year, received from the British Conference three young men, who have entered zealously into our Canadian work; and we trust we shall have an additional number, with corresponding means, forthwith. Two Ministers were received into full Connexion at an Ordination Service; and an interesting Address was delivered by Bro. Thomas Crompton, which will be published. Several Places of Worship have been erected during the year, especially a most commodious Church in Toronto, which reflects the highest credit on both the Ministers and friends in that city. By the affection and attachment of our liberal Members and Congregations, our Ministers' allowances have been met by voluntary effort; and our gratitude is due to the Giver of all Good, that, with one or two exceptions, our Ministers have had health to sustain the wear and tear peculiar to their arduous toils. Other questions besides those of a Denominational character, occupied the term of Conference; such as the Loyalty of the Body to the Throne of Britain; the Sabbath Observance question; Temperance; Education, &c. During the period of Conference, the Delegates were most hospitably entertained by our people, and by some of other Churches, in the City of Hamilton.

2. THE PRESENT. And, beloved Brethren, to promote your spiritual happiness, and the success of our cause in Canada, several measures have been suggested, the details of which are being matured by a Committee, which, when submitted to you, it is hoped will give satisfaction. Among these is the formation of a Connexional Book Establishment, in Toronto;—the publishing of a Religious Journal;—and a Revival Hymn Book. Other measures were passed, which, when fully developed and applied, will, we trust, act with additional stimulus in enabling our Missions soon to become self-supporting, that our Missionary Funds may be applied to originate new Missions in the "regions beyond." At present, several Churches are in progress of erection, in important places, such as Brantford, Brampton, &c. It affords us, dear Friends, unspeakable thankfulness to God, to record the fact, that our Body now exists in profound peace: confidence, and love reign throughout the Ministry and entire Membership. We also bless God for the flourishing and peaceful condition
