Result Will Have Some Bearing on the Cuban Situation.

London, Nov. 4.—The Evening Standard to-day makes this statement: "Altho' McKintley is the champion of the fiscal policy designed to close the ports of the United States to British goods, there can be no doubt that his defeat of the free silver candidate is a matter of satisfaction in this country."

Paris, Nov. 4.—The election in the United States was watched with great interest in France and is commented on at length. "Europe has little reason to rejoice," McKintley means a sign of acute protectionism. While the defeat of bi-metalism in Europe is a blow to bi-metalism in Europe.

Le Journal des Debats remarks: "The result has delivered America from a great peril. It could not be a matter of humanity that one of the richest and most active nations was to be plunged into ruin, and probably menaced by a violent disorder and misery rising from the stoppage of work."

The Rogers typograph operators and composing staff of the Tribune newspaper went on strike this morning against a reduction in wages. The paper appears to-night presenting a fairly good appearance.

Chief Engineer Coste, of Ottawa, says that no engineering difficulties would be encountered in making improvements at the St. Andrew's rapids on the Red River.

Sir Charles Tupper will be in Montreal on Thursday for the purpose of meeting the members of the Liberal Conservative organization of Montreal and conferring with them in regard to the reorganization of the party in the province.

The Tarte-Grenier criminal libel case was called in the court of Queen's bench yesterday, but owing to the absence of Mr. Tarte, it could not be proceeded with and an adjournment was made.

VICTORS REJOICE

New York Papers Discuss the Defeat of Bryan and Free Silver.

Atgeld Blames the Democrats for the Defeat of the Party—Still Hopeful.

New York, Nov. 3.—The Tribune, editorially, says: "Thank God, the Tribune, with all its readers, all honest men and patriots in this country, and all men everywhere who believe in the reign of law and justice, of civil order, draws a long breath, and in concert with them all says: 'Thank God.' Nothing else fully expresses the profound emotion, the deep and almost unutterable sense of gratitude which pervades the whole country this morning."

The Herald says: "Bryan was considered a stumbling block to prosperity and the people just put him out of the way. The government has been saved from invasion by the men who have backed Mr. Bryan in his enterprise, men who have never heretofore trusted, men who have openly advocated such changes that party lines have been erased in order that patriots might meet the menace with a solid front."

The Journal says: "We have no inclination to war with the jury of the people because of their verdict. If they have condemned the Democratic proposal to renounce silver, it is because they have not been sure of its expediency and have been made doubtful of its morality. Further time is needed to convince them that it is both expedient and right."

The Sun says: "The full dimensions of the victory yesterday by the American people cannot be measured exactly at the present time. The country has repudiated the repudiators, has warned the promoters of the revolution to keep their hands off our institutions, and voted to maintain unimpaired the nation's honor by one of the most impressive demonstrations of honest patriotism."

The World says: "Not since the fall of Richmond have patriotic Americans had such cause for rejoicing as they feel to-day. Then the integrity of union was secured now its honor is preserved."

Chicago, Nov. 4.—The Chicago platform lost its hold on the minds of thousands of voters among conservative business men, who were really in favor of silver. Another factor in the contest which has greatly injured the Democrats is the fact that four years ago, when the Democratic party went into power with a president and both houses of congress, but the policy of the president and the legislature were against the interests of the people.

The American people wanted a change, and if Mr. Bryan had defeated it, it is largely due to the fact that they were not willing to trust another Democratic administration, however strong its professions, with the interests of the people. The silver question will not go down until justly settled by the verdict of the people.

It is to be hoped that the next time it is submitted to the people it will not be handicapped by the injection of other questions about which the friends of free coinage radically differ in their opinions.

Chicago, Nov. 4.—Gov. Altgeld, the defeated Democratic candidate for governor, to-day gave out a statement addressed to the Democrats. He says: "Considering that only six months ago our great party lay prostrate, that it has been brought to its feet, that it has repudiated the man who betrayed it, and again proclaimed Democratic principles and espoused the cause of humanity. It was confronted by everything that money could buy, that could be bribed, or that could be intimidated, and it has never been united before, and could probably never be united again, and worse still the time was too short to educate the public. While we were defeated, our condition generally than it has been for a third of a century. We have dug the grave of the British gold standard. One more campaign of education will forever bury the palsied form of that curse which has blighted the prosperity, and the happiness of mankind. I believe that at the next general election the verdict of yesterday will be reversed. It was the great common people of America and not the rich who saved our institutions in 1861, and it will devote to the great common people of this country to save the government in 1900."

Baltimore, Nov. 4.—Mr. Joshua Levering, the prohibition candidate for president, was this morning asked his views as to the results of yesterday's election. "I think it settles for good," he said, "the question as to the sort of money standard which shall be used in this country. It seems to me that the verdict is so emphatic that the question cannot longer be considered open. There will be a return of business confidence, but whether there will be an immediate improvement in the business I cannot say. There are factors other than that of the money standard which enter into the
