HOME OF FIRST IMPORTANCE. In the provincial legislature, a representative's duty is to support the interests of the Province, regardless of Dominion parties. Mr. Foster had told us of our great western country, of its wheat fields furnishing food tor millions and of the Youkon, with its harvests of gold, but our first consideration should be for home. New Brunswick is our Youkon and its interests should be our first A SAMPLE OF FOSTER'S POLICY

of the government respecting public works, roads and bridges he heartily approved of regretted gentleman's friends would stand tension claim, which had been so long penuing between New Brunswick and the The Great Blood Purifier, Dominion. [He read a memorial prepared that had been done in the county under and presented to the Dominion government istration of public funds against the govern- government auspices and the large amount oy himself and Dr. Pugsley in 1896 showing that about \$228.000 was due to the going to the dogs and blue ruin coming people who were complaining of the provin. Province. This document showed how the 200 claim arose and presented it in a very strong light.] From time to time the THE ALONZJ U. BLISS CO. would sign a petition to the government for provincial government had knocked at the door at Ottawa in connection with this matter, and in July 1891 Mr. Foster replied to a memorial on the subject in a forma-Railways and permanent bridges could only | way saying it would receive caretal attention, and that was the last word the provincia government had on the subject from Hon. Geo. E. Foster. But Sir Charles Tuppe cultural policy of which he heartily approved. The meetings held in the farmers' interests throughout the province did a great Hazen were then members of the House of Commons, so they strangled the recommenda tion because they claimed that if it He felt it was necessary to curtail his were paid it would strengthen the hands of remarks as others were to follow him. He referred to the rumors of the last few days respecting an opposition ticket for the might be good in the estimation of M county, but said he had maintained that Foster, or Mr. Hazen, but it was an ex there would not be one in the field, and that no man would run. The alleged ticket he had no sympathy because it was agains had dwindled down to one person, the the interests of New Brunswick. Now, -all of Newcastle, -J. M. Sutton, of Nelson the provincial government a mere donkey- gentleman who had been nominated. They nowever, Mr. Blair is urging this claim upon would all remember, however, how that Open and the Province of his colleagues and the Province Donald Morrison, on the occasion of Mr. will realise upon it. He would like to as

the discussions of tariff, the Yukon Railway and other matters which had no place in Donald would never come out this time Government, consisting of Hons. A. G. long time before such conditions would exist [laughter and applause] Northumberland Blair, Mulock and Scott who are to examin as it now stood had the pull at Fredericton and report on it. If they do not agree t through the combined influence of its mem- recommend its payment, then the Province bers, and it was to her interest that the nas leave to refer it to arbitration, and he aliaved that within two months the clar would be paid and New Brunswick be \$228.

Mr. Tweedie next referred to charges o mal-administration made against the government and said there were responsible and riesponsible sources from which charges relating to public men and matters could emanate. Those which appeared in news papers at election times were examples of the irresponsible class and should not be entertained. Has the leader of the opposition taken the responsibility of formulating any charge against the government in the House, where it could be properly invest gated? He has not. When in the House he and his leading supporters were careful not to do so because they had no charge which they could bring with any hope of sustaining it. The country recognises that it is bei overned wisely and well, for in every by lection since 1895 it has seen its supporter eturned. Any man-even a fool-outsid f the Assembly can make charges, because

there is no way in which to bring him to the proof, but the man who makes a charge in the Assembly has to prove it or receive the censure of the House. This is WHY DR. STOCKTON ABSTAINS Why did he leave it to Mr. Hazen to do so? We take the case of J. B. Snowball, the largest operator in the Miramichi district. Mr. Snowball, according to his own circular, shipped in 1897 to transatlantic ports, as interests in the Legislature remain at home on Saturday. Go and large lumber operators on the Miramichi, with one exception, usually make up at the close of the shipping season a statement we senson and the quantity of logs and lumber they have on hand at the beginning and end of the season and the quantity sawn during the year. With the help of this statement we grant discover how Mr. Snowball fares at the hands of the scalers.

Meeting was opened in the Masonic Hall, which had been engaged by the government and don't make the senson and the geneleman on the Miramichi district.

Mr. Powohall, according to his own circular, which had been engaged by the government and offer. [Applause.]

The Meotron Muddle.

The election had been forced upon the province of all kinds for the promotion of the werls of all kinds for the promotion of the working people and to keep them embed they generate to be on both sides.

Beware of the double-faced canselement we hands of the scalers.

No white man can afford the left in the Legislature on hands at home on Saturday. Go and lumber they have on hand at the beginning and end of the sealers of the working people and to keep them embed to be on both sides.

Beware of the double-faced canselement we hand the provincial politics must hereafter be run on Dominion party lines. It was not the Conservative party who did this, but those who had long been enemies of the provincial politics must hereafter be run on Dominion party lines.
