INCUBATED BABIES.

A Substitute for Nature Which has Proved a Great Success in New York - Embryo Citizens Saved from Death in the Tenements - Late Improvements.

"He was incubated," the proud mother of some great man of the future will say of her son, for the baby incubator is a success and the cause to stay. The doctors declare that incubators have already been the means of saving the lives of 100 infants in New York.

Character Revivified in Conversation.

Language, like dress—and it is the garb of thought—ought to be a becoming adornment, not in any sense what is commonly called fast on the one hand, nor negligee on the other hand.

How Marbles Are Made

Most of the stone marbles used by boys are made in Germany. The refuse only of the marble and agate quarries is employed, and this is treated in such a way that there is practically no waste.

Queer Railroad Building.

One of the curiosities of railroad building is the construction of a road running from Linn, a harbor about sixty miles from Constantinople, to Angora, about 300 miles.

D'Anis Returns in Triumph.

The steamer Wilhelm, having on board Baron d'Anis, commander of the 11th troops in the Congo State, who is returning from a three years' bloody, but victorious campaign against the native tribes in that district, arrived at Antwerp this morning.

Poetry Vs. Prose.

He (Boston)—Isn't it a glorious sight to see the great waves dashing on the shore; to hear the roar of the mighty ocean, and to feel the refreshing influence of the salt spray upon your face. Isn't it magnificent?

She Knew Better.

Good-looking Young Doctor (feeling pulse of Pretty Patient)—"H'm, yes, soon put that right. You won't want me for long."

Neighborhood Advice.

Little Miss Freckles—"I've got a stiff neck."
