ALBERT CO.

Hopewell Hill, May 29.-One of the most enjoyable events of the season took place last evening, when P. W. F Brewster, proprietor of the Albert carriage factory and undertaking estabishment, and one of the most popular young men of that village, was united marriage to Miss Sarah Ella, second daughter of James Robertson of the Albert Mines. The ceremony took place at 7.30 p. m. in the Mines' church, the Rev. D. H. Lodge of Hillsboro of-ficiating. The church was filled to overflowing with the friends of the contracting parties from Hillsboro, Hopewell Hill, Albert and Harvey. The bride, who was charmingly and tastefully attired, was attended by Miss Steeves of Albert Mines, Mr. Hatfield of Albert supporting the groom. The wedding march was played as the wedding party entered the church by Miss Blight of Hillsboro. After the ceremony over one hundred guests re-paired to the residence of Mr. Roberton, father of the bride, where an elaborate wedding supper was served. At the close of the supper the large assemblage was called to order, J. S. Atkinson in the chair, and the following toasts presented: The Queen, followed by singing of the national anthem; the Pulpit and Press, responded to by Rev. Mr. Lodge; the Farmers, the speakers being Messrs. John Steeves, Isaiah Milton and M. M. Tingley; Mercantile Interests, responded to by J. L. Peck of Hillsboro; Bride and Groo Host and Hostess, and the Ladies, the latter being responded to in a very happy speech by Mr. Keating of the Mines. During the evening music was furnished by Miss Mary E. Peck of Hopewell Hill, Miss Blight of Hillsbord and others. The presents were very handsome, among the number being a

CANADA AND THE DEPRESSION.

At the annual meeting of the Bank of Montreal General Manager Clouston said:

Though the past year has not been a prosperous one, it should be a source of great satisfaction to Canadians that the business community in Canada has come so well through the ordeal and with so few failures and disasters. Montreal, June 4-Since our last review the live stock cable advices from abroad have continued weak and discouraging to shippers, and they noted a further decline of 1-2c to 1c per lb oday in Liverpool and London, ing finest state steers in the latter place at 12c and Canadians at 11 1-2c, and in Liverpool at 10 1-2c, which values are the lowest of the season so far, and at the above figures cattle are not doing shippers any good on the other side, but, on the contrary, they are loosing them money, and in order for them to get even at the present state of the market they will have to buy their stock at less money here. Considerable stock of late has been bought in the Toronto market at \$5.25 to \$5.40 per 100 lbs, and without prices improve abroad by the time they are landed they will show a smart loss. Recent sales of some of the finest bunches of cattle shipped from here to Glasgow netted the average of \$7 per head, and it was stated today that sales in Liverpool and London this week will bealmost as bad. The market for sheep abroad continues to rule strong, and prices show an advance of 1-2c to 1c per lb stock at 14 1-2c, and private cables quote as high as 15c. There is quite arrivals continue small, owing to the scarcity of stock through the country, and the bulk of the shipments so far this season have been American sheep. The exports from this port last week were 3,769 cattle and 1,211 sheep, as against 3,425 cattle and 2,311 sheep for the corresponding week last year.

(Montreal Star.) Alex Murdoch, of Murdoch, Barber & Company, Toronto, is in the city at present. He is busy at work trying to form a line of steamers to ply direct between Canada and South Africa, and other obstructions before reaching the stead of by way of New York, Liver-

The fish have arrived at last; salmon sent. Mr. Murdoch says there is hard-Canada could not supply with great profit and, with this direct line the identity of the Canadian goods would still be maintained. Great interest has been shown in the matter by people in South Africa, who have requ be made by the government and distributed through their country. Sir Mackenzie Bowell favors the idea and has promised Mr. Murdoch the hearty support of the government. Already five lines of steamers have sent in competitive offers to supply the necessary line. At present Mr. Murdoch is interviewing the leading manufacturers

A manufacturer in Europe did not find satisfaction in any of the usual methods for the lighting of his cloth mills. He tried gas jetc, arc lights, and incandescent lamps, all of which failed to satisfy him because they either did not give light enough or too much, or cast shadows. He finally painted the wall of his room white, and beneath a certain number of arc lights suspended reflectors. This threw the light up to the white ceiling, from which it was reflected to the room below, and this method of lighting is reported to have been a success.
