NO VERIFICATION NEEDED AT HOME

Everybody in Oshawa is Familiar with this Case.

Joe Brown's Wonderful Escape from Death is now an Old and oft Told Story to People of His own Town.

OSHAWA, Ont., Feb. 28.—(Special)— While interest in Joe Brown's case has been revived by the recent publication of the facts in so many papers, Oshawa people are well acquainted with whole circumstances. Mr. Brown's father-in-law, Mr. John Allin, whose place of business is right in the centre of the town, has, however, had to answer many questions recently, but as he was very close to Mr. Brown during the whole of his painful experiences in '97 and '98, he finds this an

Mr. Allin is quite as enthusiastic as Mr. Brown himself, and never tires. telling the story of how Dodd's Kidney Pills conquered disease, and saved Mr. Brown's life. He says:

"We didn't think he would ever live through it, let alone get strong and able to work, but the pills made him all right and well in a short time, and the best of it all is that the cure has stood the test of time. It must be Jamaica on its own account. As I am three and a half years since, and as in full and hearty accord with the you know he's strong and hearty to- views expressed in the letters referred day and has been ever since Dodd's to, I need not quote them here, but Kidney Pills sent him back to the hope the above questions will not be

There are many others in town who have recently been reminded of this wonderful cure of a seemingly hopeless case who find no trouble in calling up the facts, and none are slow to give all the credit to Dodd's Kidney Pills.

WANTED-A case of Headache that KUMFORT Powders will not cure in from ten to twenty minutes.

BEST'S IRON NERVE. Murderer of Bailey Laughed When Told His Doom is Sealed.

BOSTON, Feb. 28.-In a short time John C. Best, a former resident of Sackville, N. B., will be sentenced to be electrocuted for the murder of Geo. E. Bailey at Break Heart Hill farm, North Saugus, in the fall of 1900. The supreme court of the commonwealth has over-ruled the exceptions taken by Best's counsel at the trial. There is now practically no hope that the convicted man can escape the death penalty.

Bailey was shot to death one night in the farm yard. The body was chopped up, placed in sacks and sunk in a pond. The murderer, who was employed on the farm, had been drinking. He appropriated Bailey's watch and

Best, when informed of the court's decision, did not turn a hair. A smile constantly played around the corners of his mouth as he listened attentively to the reading of the certified copy of the decision. He was apparently as much interested as a man would toward Mr. Sisk and actually laughed, at the same time saying: "Well, Sisk, what's the next move in this game?" Wm. H. Stiles, the man who, next to Best, has attracted the most attention in this case since his testimony during

the trial, has moved from Lynn. He and his wife, who is Best's sister, are at present located in Nova Scotia. What the next move of the attorneys will be is undecided.

AND WORKS OFF THE COLD. Laxative Brome-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 26 cents.

MIRAMICHI LUMBER CUT.

From the best information obtainable, says the Chatham Advance, we infer that not two-thirds of the usual quantity of logs have been got out on Miramichi waters. There is an excess on the Little Southwest Miramichi, but on both of the main branches operations have been curtailed and on the main Southwest it is not expected that more than 35,000,000 s. f. will be rafted, instead of 50,000,000 of 60,000,000 as usual. Our shippers think that it is better to get good prices for a reduced quantity of deals than small prices for

SUICIDE TRURO LADY.

TRURO, N. S., Feb. 28 .- At noon to day the lifeless remains of Mrs. Jessie Fraser, a widow, were found in Salmon river, just above the highway bridge crossing the Salmon river be tween Bible Hill and Truro. Mrs. Fraser left home yesterday afternoon in the company of Mrs. A. B. Fletcher. She afterwards visited the house of a family named Nairn. This morning her sister discovered a note under the absent lady's pillow. It read as fol-

"I am so frightened at having another stroke. I fear continuous life more than death. I hope there is money enough to bury me. My bank book is in the bureau drawer. I hope produced.

This note gave the first intimatio to the household that suicide was con-The deceased was highly respected She suffered a slight paralytic stroke about two months ago. She was about

sixty-four years of age and was a daughter of the late Rev. John Baxter. TELLURIDE, Colo., March 2.—Two snow-slides came down the mountain near the Bobtail mine today, the second burying sev-eral men at work clearing away the debris from the first. Henry H. Martin is missing. Several were rescued with slight injuries.

LETTERS FROM THE PEOPL ***** *****

NEW PLANKS FOR THE LIBERAL

CONSERVATIVE PLATFORM SUNDRY MATTERS.

To the Editor of the Sun: Sir-Readers of the Sun may remember that some months ago a series of letters appeared in its col-umns urging the acquisition by Canda of Newfoundland, Greenland and the West India Islands. It was shown that while the first named would be reatly advantaged by union, the dominion, too, would be advantaged thereby, and that until that was done thereby, and that until that was done
the unification of British America
would be incomplete. It was shown
how undesirable it would be to have
another Alaska on our borders. And
as the West Indies produced much
that we need, and much that we produce is needed there, steps should be taken to establish freer commercial intercourse with our fellow subjects in the islands of the Carribean Sea. In regard to the latter I am pleased to see that the great corporation to which Canada is so greatly indebted by the building of our trans-continental rail ship lines with Japan, has not waited for the government to move in the matter, but has opened up steam communication between St. John and Jamaica on its own account. As I am overlooked by the press and people of

this country. It will be remembered that when in opposition the leaders of the liberal party were loud in their denun of the reckless manner in which the public moneys were squandered, as well as the promises made of rigid onomy should they be, entrusted with the management of public affairs. No doubt many extravagances were indulged in by the conservatives for which no honest man can find any solid reason, but no one pretends that the promises made by their opponents have been kept. In this respect we must not imitate their example. Our platform must be framed in such a way as to render it impossible to explain it away. I would begin with the cabinet. We certainly have too many ministers. If Great Britain, which has no inferior legislature to look after local affairs, has to care for the interests of a world wide empire and to deal with the governments of the world, can do with twenty cabinet ministers, and if the United States, with a population of over seventy millions and maintaining official relations with every natio on earth, has only eight heads of de partments, surely, surely, Canada, vith less than six millions, and as yet not even so much as represented in the parliament that deals with imperial matters, does not require six-teen cabinet ministers. Ten should be sufficient, and these might be thus

distributed, three each to Ontario and Quebec, and two each to the maritime provinces and to the west. be in reading a story, and at its con- Economy could be practiced in other clusion, when the two final words fell departments of the public service from the lips of the, lawyer "exceptions overruled," Best turned his face while the burdens of the people would be correspondingly lessened. And unless we can show we can conduct public affairs more economically than our opponents, we have no right on that ground at least to ask for a change. In this age of extensive travel, when time is money and the quickest conveyances are the ones in demand, fast Atlantic steamship service is a necessity. With splendidly equipped lines running between New York and British ports, and which make the voyage in little more than five days, it is useless to expect much patronage to be given to those which take eight or ten. And what is true of travel is equally true of transportation, and the lines that can the most readily handle goods will

with the push and energy for which the people of northern lands are gen

erally known, will meet the needs of the case at the earliest possible mo-Money can be spent to very great advantage in the improvement of our harbors. The St. Lawrence needs to be deepened to allow larger ships to go up to Montreal. A better service is certainly required between Prince Edward Island and the mainland. And with our constantly increasing trade our harbor should not be neglected. Where railroads are necessary let them be built, but built for the advantage of the public, and not for the benefit of political supporters. Let everything that is possible be done to open up the country and to bring it into direct communication with the centres of population With a penny wise policy I have no sympathy whatever, and a wise expenditure of money in thes ways is always a good investment. The matters spoken of in these letters are of the greatest possible importance, not only to Canada but to the Empire, and will have to be dealt with somer or later, and the sooner the better for all concerned. In any change that may be made in the relations of the colonies to the motherland, Canada will have to take a prominent part. And unless I very much misunderstand the signs of the times, the party that adopts a truly imperial policy for the whole Empire will be the one that will command the support of the wisest and best of all parties. My hope is that the eaders of the conservative party will avail themselves of the opportunity

FIRE IN CALAIS. Finest Business Block in the Town Badly Damaged.

ST. STEPHEN, N. B., March 1.—The handsome brick block at the corner of Main and North streets, in Calais, was badly damaged by a fire which was discovered just after midnight this morning. The building is owned by the Calais National bank, and was the finest business block in the city. The bank and Wm. Woods & Co., dry goods, occupied the lower floor. The second loor was occupied by the Calais Say ings bank, and contained also some office rooms, at present unoccupied The third floor was occupied by the Oddfellows, who had a finely furnished lodge room, banquet hall and ante rooms. The fire started in the uppe story and had gained considerable headway before the fire company go to work. The roof was burned off and the property of the Oddfellows totally destroyed by fire, but the flames were confined to the upper story and below that the damage was done by water.

The losses are stated as follows: Oddfellows subordinate lodge, \$3,000 insurance \$1,600; Rebekahs, \$500, insurance. \$250; Encampment, \$800, insur ance, \$360; Calais National bank, \$15, 000; insurance, \$15,000; Savings bank \$200, no insurance; Wm. Woods & Go. \$35,000, insurance \$14,000.

The origin of the fire is unknown but the Oddfellows met last night and the fire started in their rooms.

A MARVELLOUS MEDICINE. Having a direct and combined action on both the liver and kidneys, Dr. Chase's Kidney-Liver Pills will positively cure many complicated ailments which cannot be reached by any other medicine, and hence its extraordinary success and popularity. Biliousness liver complaint, Bright's disease, de-ranged kidneys and stomach troubles are promptly and thoroughly overcom by this great family medicine, pill a dose, 25 cents a box.

DIED AT NEWFOUNDLAND.

A telegram from St. Johns, Newfoundland, announces the death at that place on Sunday last of Mrs. Lizzie Williams, relict of the late Thomas Williams of Fredericton. Mrs. Willams left last fall to spend the winter with her daughter, Mrs. Carter, at St. Johns, and was only ill three days when she passed away. The deceased lady was about 70 years of age, and resided in Fredericton all her life. She leaves four daughters, Misses Annie and Eludie Williams of Fredericton, Mrs. O'Mally of St. John and Mrs. Edward Carter at Newfoundland, with whom she was residing at the time of her death.

Deaf as a Door Nail.

be the ones to get the goods to handle. He removed to Moncton in 1890, and in 1898 entered the I. C. R. service. In 1891 he married Ethel, only daughter of the ate Thos. Robb, city treasurer of

PARIS, March 2.—Following an exciting meeting of the unemployed held here this morning at the labor exchange, the agitators attempted to hold an outdoor meeting in the Piace de la Republique. A fight with the nolice ensued in which eleven policemen were severely injured, and a score more sustained bruises. A number of the rioters were injured and twenty were placed under arrest.

g of Righth Session of Provincial Dairy School - List of Students.

The eighth session of the Provincial Dairy School opened under the most favorable conditions today with the largest attendance since its inaugura-tion. Quite a number of the old students have returned, which speaks volumes for the school and instructors. Those who have sent in applications and in attendance come from the provinces of Nova Scotia, P. E. I. and New Brunswick as follows: Donald Butler, Crapaud, P. E. I.; Geo. A. Drake, Kathadin Iron Works, Maine; Jas. D. Hill, Bast Hall, N. S.; C. D. Pronaford, Salt Springs, N. S.; L. B. Owens, Little Bass River, N. S.; E. D. Hennessey, Brooklin, N. S.; Ordie Tulley, Oxford, N. S.; H. J. Pearson, Highfield, N. B.; E. J. Stokoe, Bloomfield, Car. Co., N. B.; E. A. Wheaton, Petitcodiac N. B.; W. W. Prettle, Butternut Ridge, N. B.; Thos. H. McPhail Butternut Ridge, N. B.; M. A. Jewett, Keswick Ridge, N. B.; C. H. Clark, Corn Hill, N. B.; Lewis Bouchard, Baker Lake, N. B.; H. Brinkman, Sal monhurst, N. B.; P. J. Larsen, Toley Brook, N. B.; H. D. Hicks, Butternut Ridge, N. B.; R. Robinson, Elgin, N. B.; C. M. Humphreys, Butternut Ridge, N. B.; Frank McCready, Salisbury, N. B.; R. A. Doucett, Shediac, N. B.; C. R. Folkins, Midland, N. B.; C. B. McCutcheon, Pr. William, N. B.; R. D. Ross, Pr. William, N. B.; F. B. Ross, Hammond, N. B.; B. R. Fawcett, Killam's Mills, N. B.; W. J. Frier, She diac, N.B.; J. W. Loughery, Waterford N. B.; N. H. LeBlanc, St. Joseph, N. B.; D. M. Gaudet, St. Joseph, N. B. Roll is called at 8 a. m. and the stud ents divided into four groups, one class taking milk testing, another cheese making, another separating and another outter making, changing each day through the course.

Practical instruction is given in each department, and after the work is completed all the classes assemble the lecture room, where they are addressed by one of the instructors, taking up the work of his department An open discussion follows after each

About 3,500 lbs. of milk per day i used in the several departments, about 1,800 lbs. being made into cheese. A combined simplex oburn and but ter worker has been added to the ool equipment, which puts it upor equal footing with any factory in Can-

The instructors are as follows: Harvey Mitchell, superintendent and in-structor in milk testing; J. F. Tilley, instructor in cheese making; L. C. Daigle, instructor in butter making; Geo. Ransom, instructor in cream separation, and Robt. Robertso superintendent Nappan farm, instruc-tor in animal husbandry.

All the above named instructors have

had long experience in the work, which renders them capable of giving the most up to date information.

The Dairy School building, which was constructed by the New Brunswick government three years ago, give ample room for craying on the work, and the county a Kinga should feel proud of the fact that they can boast of having a dairy school in operation

HAS ADDISON'S DISEASE. Members of the medical fraternity of this city are now regretting the escape of an immigrant who would have proved a most interesting subject for examination. His name is Maurius Anderson, and he came here on the Tunisian. He was retained by the U. S. commissioners for tuberculosis of the skin and as liable to become a public charge. Besides this, he was suspected of having Addison's disease concealed somewhere about his person. but the examination on the steamer was not sufficient to decide this. He was ordered to be taken to the hospital, where a further examination would be made, but on Wednesday evening Anderson took the train for Boston. Instructions were wired to Vanceboro to have him stopped, and he was held up there. He will be sent back to his own country, probably from an American port, unless the steamship people here guarantee to have him deported from St. John. The skin of the victim becomes copper colored, and presents a most striking appearance. As the disease is a degeneration of the important tissues of the body it is a ways fatal.

That Country Market District of the victim becomes with the strain of the important tissues of the body it is a ways fatal.

The case with a very market to be water and clyde. The Northern Central road weighted its bridges down with cars to hold them.

SCRANTON, Pa., March 2.—Incessant rain pital, where a further examination

between here and Palmyra and Detween here and Clyde. The Northern Central road weighted its bridges down with cars to hold them.

The case which was recently heard in the police court in regard to the payment of fees on produce brought to the city market will again be taken up on Thursday. Upon permission of Director Wisely, the city chamberlain has entered a civil suit against John F. Taylor, of Rothesay, for the recovery of the fees claimed to be due on six carcasses of beef sold by Mr. Taylor to Mr. Minehan. This step is being taken to have the question of payment of tolls finally decided and the city is taking up the matter on behalf of F. L. Potts, the lessee of the market tolls. Country people are in the habit of bringing produce to the market, disposing of it there to stall holders, and brought in nearly thirteen hundred pounds of pork, which he sold for nine cents per pound, and at first absolutely refused to pay the couple of dollars claimed by the collector.

EXPELLED FROM HOSPITAL.

Oliver Yeoman, a patient undergoing the pay the couple of the case of the market of the collector.

Discovery of the fees of the market of the collector.

SCRANTON, Pa., March 2.—Incessant rain all day consed the Lackawanna to begin to rise again at noon, but when the rain ceased at nightfall, danger of a repetition of Frieday's flooding subsided. Traffic on the Delaware, Lackswanna and Western was resumed to rise again at noon, but when the rain ceased at nightfall, danger of a repetition of Frieday's flooding subsided. Traffic on the Delaware and Hudson that is now open.

Joseph Gallagher, a 14-year-old boy, was drowned by falling from a bridge into the river, and James O'Mally, a miner, 25 years old, who has not been seen since Saturday morning, is supposed to have lost his into in crossing Keyser creek on his way home from work.

HUNTINGTON, W. Va., March 2.—The foliomy of adjacent towns many persons are seeking higher quarters, but the danger line has a still rising at Whitcheuse, and the Guyan and Twelve Pole are pr

Oliver Yeoman, a patient undergoing treatment at the General Public Hospital for neck trouble, has been expelled from that institution for violating the rules. It appears that, as stated by A. W. Day of Westfield, when Mr. Richards, who died in the hospital, was on liquid diet Yeoman, acting contrary to orders, had given him some toast. Yeoman claimed that one of the nurses, Miss Claire Kellier, had given him permission to get the toast for Richards, but Miss Kellier flatly refused to get toast for Richards, as solid food was not allowed him. Then Yeoman went for the toast himself and gave it to Richards. On account of this and other charges against him he was expelled.

SNOW SLIDES. It Is Feared Twenty or Thirty Lives Were Lost.

TELLURIDE, Colo., March 1.-Fourteen dead, as many injured and a score or more missing are the result, so far as known, of the series of snow slides which occurred in the vicinity of the Liberty Bell mine on Smuggler Mountain, three and a half miles north of Telluride, where the roads between here and the Liberty Bell are almost impassable and details of the accident are hard to obtain.

It seems that no less than four distinet slides occurred, each one claiming two or more victims. Several bodies have been recovered, but quite a number of the known dead are still buried under tons of snow, rocks and timbers, by which they were carried down.

To cure Headache in ten minutes use KUMFORT Headache Powders.

WIDESPREAD FLOODS.

Following Heavy Rains In Middle and N. E. States.

Paterson, New Jersey, Recently Swep by Fire, is Now Inuadated-The Situation in New England.

PATERSON, N. J., March 2.-This city, so recently swept by fire, is now overwhelmed by flood. The quarter class is inundated. Hundreds of fami lies have been made homeless by th

country for miles around the city is under water. So far but one death has been reported. The great peril now is that the Spruc street raceway may overflow, in which event a fearful loss of property in the manufacturing districts is sure to ensue. The raceway supplies water power for most of the mills along the water front. The city authorities instructed engineers to open a new channel with dynamite if necessary. At 5 o'clock this afternoon the water in the race-

way was within three inches of the danger point, but four hours later it was reported that it was receding. The district for a mile along the river front and nearly half a mile in width is covered with water, which in many cases reaches to the second story of the dwellings. In this district are situated the Rogers Locomotive Works and several silk mills and dye works. In the immediate vicinity fully six hundred families have been driven from their tenements. Of these unfortunates several hundred were taken from their houses in boats and barges amid scenes of much excitement. TRENTON, N. J., March 2.-The Delaward

iver reached its greatest height here about 3 o'clock this afternoon. At that time it was 14 feet above the normal level. The river is full of ice and the water is rushing through in torrents. Very little damage is being come by the rise in the river so far as the actual destruction of property is conas the actual destruction of property is con-cerned.

Some families are obliged to use boats to get to and from their homes. The basement of the print mill of Goldigs Sons Co. is filled and the company is obliged to cease operations: This is the only manufacturing plant in Trenton scriously affected by the flood.

BOSTON, March 2.—Flood reports are general tonight from every part of New England, although the conditions are not particularly alarming, for the rain storm has passed and the thermometer is a little lower. The remarkable heavy rainfall of Friday night and the warm temperature since has carried away most of the snow which fell during February. The volume of water the thrown upon the frozen ground has swolen to great height all streams, large and sanail. The indications in eastern New England are that the freshets will not do anything like the damage the high water in the sarly winter did unlesses the thaw continues heavy and without a break over the watersheds of the Penobscot, Kennebec and Androscoggin rivers.

Hite.

AUGUSTA, Me., March 2.—The rain was very heavy throughout the Kennebec region and the ice in the navigable river is rapidly breaking up and wearing away. Reports from up river say the rainfall was heavy, and it is feared that the ice will go out. No damage is reported, but the people here and at Waterville are preparing for a rise tomorrow.

and it watervine are preparing for a rise tomorrow.

LAWRENCE, Mass., March 2.—The Merrimack and other streams here are at a great height. Cellars in many places have been flooded by the heavy rains and warm weather that prevailed since Friday. Although the freshet tonight is not so damaging as in former years, fears were expressed that several of the mills may not be able to operate Monday because of the extremely high water.

amichi this winter.

Asthma.

ou've tried almost everything for it, haven't you? And we presume you are about discouraged. Now what do you think of our idea of breathing-in the medicine, bringing it right up to the diseased part?

It looks reasonable, doesn't it? And

it's successful, too.
When you inhale Vapo-Cresolene your breathing becomes easy, the wheezing ceases, and you drop to sleep. For croup and whoopingcough it's a quick cure.

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete. Engagerra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians testimolals free upon request. Vapo-CresoLene Conso Pulton St., New York, U.S.A.

EPPS'S COCOA BREAKFAST-SUPPER

A FAMILY FULL OF YEARS. (Sackville Tribune.)

Westmorland Point has an old resident in the person of Chas. Siddall, sr., who is now 95 years old. Mr. Siddall was born near the old fort. He married Louisa, daughter of the late Squire Bill Chappell of Bale Verte, and has three sons, Godfrey of Port Elgin, Bill of Baie Verte, and Chas. A. D. of Sackville; and three daughters, Mrs. Jas. Sutherland of Westmorland Point,

Mrs. Rufus Oulton of Baie Verte, and Mrs. W. J. Mahoney of Parrsboro. The youngest member of this family is now fifty years of age. Mrs. Siddall died in 1897 at the age of 85 years. Mr. Siddall's father attained the age of 77, while his mother lived to be 90. operate Monday because of the extremely high water.
