You may hammer ice on an anvil, or ray it in a mortar. What then 7 It is ounded ice still, except for the little porwhere it is a morear. What then 7. It is pounded los still, except for the little gor-ion melted by the heat of percansion, and it will soon all congest again. Melt it in the son, and it flows down in awest water, which mirrow that light which 'housed in bonds of cold. So hammers any at unbe-lief with your logical sledge-hammers, and you will change is a hape, perhaps ; but it is none the less unbelief because you have grown it is to powder. It is a mightire agent that must melt it—the fire of God's lore, brought close by a will itself, ablane with the sacred glow.
