Important Lecture by Howe!

WHAT HE THINKS ABOUT ENGLAND AND THE WASHINGTON TREATY!

GOOD ADVICE TO OTTAWA PEOPLE!

Hard on the "Idiot" Aikens and Parish Politics!

TILLEY'S DINNER TO NEW BRUNSWICKERS!

[Special Telegram to the Daily Tribune.]

OTTAWA, Feb. 28

There was a good attendance at Howe's lecture last evening in Gowan's Hall. His address was written. It avoided jokes, and consisted chiefly of advice to the young men of Ottawa, whom he admonished to make the most of their very great advantages, among which were the opportunities of attending Parliament and hearing the debates, the use of the National Library, the ASSOCIATION WITH REPRESENTATIVES

from all parts of the Dominion, and with the Civil Service.

He spoke of the progress made in Ottawa since he visited it ten years ago, when the Public Buildings were begun, and the streets were mud holes, though much still remained to be done to make the Capital what was justly expected of it. Water-works and drainage were imperative; the streets should be planted with trees; the Civic Body and School Boards received a WELL MERITED REBUKE

for their petty bickerings, and were admonished to adopt a higher standard. The Capital should lead other cities of the Dominion in manners, culture and thought, as well as in the superiority of its local administration. If it did not rise to equal the national expectation, the massive piles upon the Bluffs

WOULD NOT SAVE IT

from destruction.

Taking broader ground, he spoke of the advantages and dangers of Canada, and the necessity of all being united, giving equal credit for what was good, let it emanate from what section it might. It was too late in the day for a repetition of THE MISERABLE SNEER

about Parish politics. If Ontario chose to send an idiot to Parliament instead of the Louie to the House, or if British Columbia should send a statesman worthy of the age, both should have credit for what they had done. He referred to

THE GROWING FEELING

in England looking to the abandonment of the British rule in America, and strongly deprecated the policy of withdrawing the troops. He would not anticipate the action of Parliament on the Washington Treaty, but he thought there would be a strong feeling against England's purchasing her peace at the expense of Canada.

He commended the good work of the Young Men's Christian Associations here and elsewhere, and concluded his discourse amid prolonged cheering.

They gave a dinner to a large number of friends, mostly New Brunswickers, last evening.

London, Feb. 27—midnight.

Several

SERIOUS ACCIDENTS

happened to day, owing to the great masses of spectators on the line of the procession.

One man was

CRUSHED TO DEATH

in Trafalgar Square, and a number of people were injured. Two sands, each containing 150 persons, fell in under the weight, and many were badly bruised.

Despatches from Dublin, Berlin, Bombay and other places state that

WASHINGTON, Feb. 27.

In the Senate Bills for the relief of the Chicago Postmaster and to admit free duty the photographs to be exhibited at the National Photograph Exhibition in Cleveland, are passed.

THE FRENCH ARMS

resolution was discussed.

In the House a bill was reported to facilitate Bank Clearing House Exchanges.

In the Senate the Bill setting apart the Yellowstone Valley as

A NATIONAL PARK

passed.

The greater part of the session was occupied in the consideration of the deficit bill in Committee of the Whole.

The Ways and Means Committee is actively at work upon

THE TARIFF,

taking the bill lately offered by Burehard of Illinois as the basis of operations. Today the subject of

PIG IRON

was under discussion, the friends of the interest laboring to keep the duty at its present rate to avert a reduction to \$8 proposed by Burehard. No decision was arrived at, but it is safe to predict that the Pennsylvania interest will prove strong, enough and shrewd enough, when the matter comes into the House, to

PROTECT ITSELF.

The Committee are going carefully through the whole subject of the Tariff and will bring in a Bill without reference to what has already been done in the House in the way of removing the duty on tea and coffee. The report may be ready within a week or ten days, and will doubtless be offered for the sake of clearing it away

THE TAX BILLS.

The Cabinet was in session two hours today. The reply of

SECRETARY FISH

to Granville's note is not yet complete though the points are agreed upon. The American statement of the case will be altered, as by Treaty full provision is made for

AN AMICABLE ADJUSTMENT

of all differences through the tribunal of arbitrators or Board of Commissioners.

All who have not heard this celebrated lecturer should do so, as this may be their only opportunity to hear the speaker.
