UNION

The Union Sulphur Company are the pioneers of the Sulphur industry of America and today, after 20 years of constantly increasing business are still the leaders. The Sulphur produced by this company runs well over the 99½ per cent. purity guaranteed. The better to serve paper manufacturers, a fleet of vessels used solely to transport sulphur to numerous ports for distribution is owned and operated by this company. High grade pulp requires two ingredients—carefully selected wood and pure sulphur. Whatever the wood you use, be sure to combine with it the right sulphur—Union Sulphur.
