February, 1906.

The length of rear roll shaft is 94 inches; that of the front roll shaft 60 inches. The distances between the point of ways is 30 inches; the extreme fall of the hammer is 6 feet 4 inches. The total weight of machine is 125,000 pounds.

Items of Interest.

In Russia no photographer can pursue his calling unless he has a license.

The most costly tomb in existence is that erected in honor of Mohammed. A snail crawling without pause would require fourteen days and five hours to cover a mile.

All saloons are closed in Norway on pay days, and the savings banks are kept open until midnight.

An orange hit in the exact centre by a rifle ball will vanish at once from sight scattered into infinitesimal pieces.

Spitzbergen is one of the few countries as yet unclaimed by any nation. Anyone can dig the coal found in the cliffs there.

In Atlanta, Ga., it is the Christmas custom to let free all prisoners whose only offence has been against the city ordinances.

The German Empress writes with a swan quill, carefully selected and prepared. Wherever her majesty goes packets of these quills are among her luggage.

Lullington Church, near Eastbourne, England, is said to be the smallest church in England; perhaps there is none smaller in the world. It seats eight persons.

Whales from three hundred to four hundred years old are sometimes met with. The age is ascertained by the size and number of layers of the whalebone, which increase yearly.

The combined salaries of the Presidents of the fourteen leading universities in the United States do not equal the amount paid to the head of one Life Insurance Company.

At the saturnalia, the heathen prototype of Christmas, it was the Roman custom to decorate the houses with evergreens. This was done to give the woodland spirits refuge from the cold.

Conspicuous among the adornments of the bridal feast in Brittany is an artistic and elaborate butter structure, as fanciful and elegant as the most beautiful bridal cake, and into this structure the guests stick sticks bearing coins of gold and silver.

A Japanese fisherman has caught at Honolulu a new and strange fish, which, so far as is known, is unique. The fish is called the frog fish, because of the fact that besides fins and gills it has four well developed legs and feet, the feet being even provided with toe-nails.

New Year's in France is a greater day for exchanging gifts than Christmas. The custom of New Year's calls, once so popular in this country but now fallen almost into disuse is still supreme in Paris. Great family dinners, in which the orange figures most prominently add to the gaiety of the day. So crowded are the pavements on the boulevards that pedestrians sometimes have to take the middle of the street.

Superheating.

Superheating is being forced to 554 deg. F. on the Prussian State railroads. When steam is superheated to 500 deg. F. a saving of 10 per cent. in steam and 12 per cent. in fuel can be obtained, as compared with similar locomotives using saturated steam, the greater saving in water than in fuel being due mostly to the prevention of losses caused by condensation.

A SUCCESSFUL MEDICINE.—Everyone wishes to be successful in any undertaking in which he may engage. It is, therefore, extremely gratifying to the proprietors of Parnelec's Vegetable Pills to know that their efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations. The endorsement of these pills by the public is a proof that a pill has been produced which will fulfil everything

IT PAYS TO FEED "INTERNATIONAL STOCK FOOD."

Centreville, N.B., June 13th, 1904.
International Stock Food Co., Toronto, Ont.
DEAR SIR:—Your Stock Food is all you said it was. I am well satisfied. I purchased a team horse just before getting your Food. He was thin and rough coated; but by feeding your Stock Food, he gained rapidly. He looked as if he put on fifty pounds of flesh in fifteen days; and his coat was glossy and smooth.
I can and will recommend it to all horsemen and stock raisers.
Yours truly,
G. H. HARTLEY.

Why throw good grain on the manure pile?

If you only knew the amount of money you could save every year by using INTERNATIONAL STOCK FOOD, 3 Feeds for One Cent, we would have to double the size of our factory inside of the next twenty days. You will know sooner or later but we want you to make a trial right now. If your neighbor tells you an article is good and a money saver you would probably make a trial of it. Now the party whose testimonial we print above is just as honest as your neighbor would be and he is a successful stock raiser. He credits a large part of his success to INTERNATIONAL STOCK FOOD. It has helped him and we know it will help you. Its cost is small only three feeds for one cent and we guarantee to refund your money in case you are dissatisfied with the results obtained. Remember INTERNATIONAL STOCK FOOD is a purely concentrated medicinal preparation composed of roots, herbs, seeds, barks, etc., and is fed to stock in small quantities in addition to the regular grain ration for the purpose of aiding digestion and insuring perfect assimilation. It is not the amount of grain that the animal eats that fattens and builds up the body but it is the part of that grain that is taken into the system.

A BEAUTIFUL PICTURE OF "DAN PATCH," 1.55 1/4, FREE POSTAGE PREPAID
Dan Patch 1.55 1/4 is known the world over as the International Stock Food Horse, and after eating INTERNATIONAL STOCK FOOD for six months he broke eight world's records. Write us at once and answer the following questions:

1. HOW MUCH STOCK OF ALL KINDS DO YOU OWN.
2. WHAT PAPER DID YOU SEE THIS OFFER IN.

Address at once.

Men It's Free!

Until You Are Cured

I make this offer to weak men, particularly those men who have spent their earnings for years on dope (the drugs that make them feel like a young colt one day and like an old, broken-down hack the day after), those men who have tried so many things that they are tired of fooling and want a cure. Those are the men I appeal to, and I am willing to give my electric belt free until you are cured.

I claim that I can cure weak men; that I can pump new life into worn-out bodies; that I can cure your pains and aches, limber up your joints and make you feel as frisky and vigorous as you ever did in your life. That's claiming a good deal, but I have got a good remedy, and know it well enough to take all the risk if you will secure me so that I will get my pay when you are cured.

No man can lose on this. If the cure is worth the price you don't have to pay for it until you get it. When you are ready to say you are a big, husky and frisky specimen of vigorous manhood; that you are paid, and that you feel better than you ever did in your life, I get paid. If you can't say it after using my belt for three months, then give me back my old belt and I won't ask a cent.

A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like it. Anyway, my patient returned the Belt and said I hadn't done him any good. He said he thought I had treated him honestly and wanted to pay me the cost of the Belt because it couldn't be used again. I refused, and told him that I had made a contract to cure him or get nothing, and I wouldn't take a dollar I hadn't earned.

I don't charge much for a cure. My Belts are as low as \$5. That will cure some cases, and it won't cost you a cent if it doesn't. Did you ever see a doctor who would agree to cure you for \$5 and wait for his money till you were cured?

I've cured lots of men who had paid over a thousand dollars to doctors before they came to me.

Dr. McLaughlin,
Dear Sir,—I wish to say that to-day I am a strong man—stronger than I had ever hoped to be, considering my age—sixty years. I feel the same as I did when I was thirty years old, and I have nobody to thank but Dr. McLaughlin's Electric Belt. I had a weak back before commencing to use your Belt, but am now a strong man. I have advised many to buy your Belt, and they have also been completely cured. I recommend Dr. McLaughlin's Electric Belts to all who suffer.
(Translated from Swedish.)
Stavelly, Alta, Dec. 15, 1905.
Yours very truly,
P. L. POPPENHAGEN.

I have cured thousands of men who have squandered the savings of years in useless doctoring. My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no stinging or burn, as in the old style Belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

An old man of 70 says he feels as strong and young as he did at 35. That shows it renews the vigor of youth. It cures Rheumatism, Sciatic Pains, Lumbago, Kidney Trouble, banishes pain in a night never to return.

Dr. McLaughlin,
Dear Sir,—It is with the greatest of pleasure that I now write you. I would have written before, but I wanted to give your Belt a good trial first. I have found it just as you recommended it to be. I will do all I can for you and your Belts in this part of the country. Wishing you and your company all the success in the world, I remain,
Yours truly,
JAS. HILL.
Tell me where you are and I'll give you the name of a man in your town that I've cured. I've got cures in every town.

That's enough. You need the cure. I've got it. You want it. I'll give it to you or you need not pay me a cent. Come and get it now. The pleasurable moments of this life are too few, so don't throw away any. While there is a chance to be husky and strong, to throw out your chest and look at yourself in the glass and say, "I'm a man," do it, and don't waste time thinking about it. I've got a beautiful look, full of good, honest talk about how men are made big and noble, and I'll send it to you free, sealed, if you send this coupon. Call for consultation free.

DR. E. M. McLAUGHLIN,
130 Yonge St., Toronto
