putting into the gasoline. 3. A brush or cloth must be used to clean parts that cannot be rubbed. 4. Thorough washing and more thorough rinsing, especially if soap is used, is necessary. (One would not use in water for washing). 5. Dry in the open air or in a draft. Heat will remove all trace of odor—never go near a flame. 6. Some material needs light pressing. White kid needs extra treating. Gloves are most easily cleaned on the hands or use a wooden spoon to press out the fingers. After rinsing dry—after drying use French chalk. (a) to improve color. (b) To give a gloss which prevents them soiling so readily. (c) to soften the leather. N.B.—Any good toilet soap may be used with gasoline to take out perspiration stains—not necessary to buy a dry cleaning soap. Pure curd soap is best. Easiest used by putting in a solution of gasoline. Whatever you use for dry cleaning must be as free from water as possible. When soap is used with gasoline, you must rinse it out thoroughly or it will leave a mark.

Tinting with gasoline and oil paints. Gloves, laces, etc., can be tinted by dissolving a little oil paint in gasoline.

TO TAKE OUT STAINS

Always put a folded cloth underneath to absorb the gas. (a) To prevent it from spreading. (b) To prevent ring forming. On white or very light goods spread French chalk or cornstarch liberally about the stain. This scatters the moisture and does not allow it to dry in lines. If the gasoline spreads in dark goods brush the lines made by wet, and dry, not allowing it to dry in a set line. GREASE—Clean by putting French chalk on and leaving in a warm place. (Heat gasoline to prevent ring). FR. CLEANED—rubbing chalk well into the goods and leaving a warm place. SHOE BLACKING—Tar oil on skirts should have lard rubbed in, then wash in gasoline.

TO CLEAN FURS

Light furs are best cleaned by rubbing into them hot flour or cornstarch or rice. Ermine, etc. Rub the hot flour well in, using a brush for very much soiled parts. Leave in over night if possible, then shake out. Very dirty furs may be cleaned in
