man remarked to me leat segment, faut shout the time that copy Neelpas were at a minimum and feed hills at a maximum. A few weeks ago I passadd the question on to Mr. Lewis N. Clarke, one of the most extensive specialized poultry farmens in Canada. "Can you renew your fock at a profit;" I saked him. "H coats me practically nething to rear a pullet to the laying ago." Mr. Clarke replied. "The price c. a cockward covers that. I did not sell any of my brollem last spring for less than \$1.50 a pair."
"Do you mean," I saked, "that the

"The profess has spring for less than \$1.50 a pair."

"Do you mean," I asked, "that the receipts from the sale of broilers will pay for the feeding of both the pullets and the broilers."

"Bracetly," he replied. "We sell all of our broilers to our agg enstonmers. They are deemed on the farm and packed in i.e. for adaptment. This may be a good deal of a nuisance, buil it agos." Then Nr. Clarke added with a smile, "I find last most things which-people regard as a pullance are green." people regard as a nuisance are pro-fitable."

The broilers from Oldham Farms The brothers from Oddham Farms weigh about two pounds dreased, but out drawn, at 12 weeks of age They are finished on a ration of 100 ths. floor, 100 ths. cora chop, and 40 ths. best meal. "This is the only fastisating much I know of that operations" at treed of," and Mr. Clarks. The statistics. get troe of and see Charles. The ministers is for do as a crumathly wet massimized with outconsulfic or some skint-massimized with buttor-sulfic or some skint-massimized and said enough to make it slightly sally to the taste. We feed the condenses in lots of 000. Furings the fattening process each face has a small colony hours and a wirsr run in feet square."

"Them you do not have to credit the mouse received for your old heas against the renewing of the flock?"
"No, I always have that money for some special gurpone," etated the pro-prietor of Oldham. —P. E. E.

"Cheapness" in Poultry Matters

By Michael K. Boyer.

O many begin the poultry business on a "cheap" scale. Anything purchased simply because it is "cheap" is a mistake. Men of the "make-shift" calibre are, as a rule, he unsuccessful ones.

rule, he musicount? I ones.

20 1 always wine to buy the best, and, in, wily measured, the but is the cheapeer in the long run. The writer-has found that in ascaly every case the man who perceits in advections that "poutry don't you' began with cheap, poorly constructed houses, surchased common, dumpfill slock because they could be had at while-fewl prices, and fet them on grains not calculated do make them productive, as the price for the nopper articles.

calculated do make them productive, as the price for the proper articles of food "cost too much money."

Beninning with "the bounes: It is in, pertant it. "they be built of good, strong materia, well roofed, and roomy. The cheap houses are not only comestated with poor, second-hand lumber, but, in order to cut down the cost are made narrow, contracted quarters, allowing insufficient room and very noor ventilation.

quartere, allowing insufficient room and very poor ventilation.

Then comes the question of stock: It must be chasp. If pure-blooded stock costs two dollars per head, and common duphills only one dollar per head, it is reasoned that "a man is a foot to par two dollars for a hear when the same money will buy two
