

HAPPENINGS IN THE WORLD OF SPORT

Ottawa Aberdeens, Though Winners of Ross Trophy, May Not Be Awarded Cup by the Trustees

FULLERTON JOINS ROYALS

All the Games for the Allan Cup Will Take Place Next Winter in West—Expert Does Not Believe Johnson Can Retain Heavyweight Title

Playing at two styles of hockey the Aberdeens, of Ottawa, not having been defeated by a Canadian team this season, last evening succeeded in making good their claim to the Art Ross trophy by defeating the stars by a score of 5 to 3.

John R. Robinson sends out from Cuba a little tip on Jack Johnson's condition. "I'm going to string you with Willard," says John. "I've watched Johnson work out, and he's hog fat. Any time you see a champion with fat accumulating around his knees you can gamble that he is done as an athlete."

Harry Phelan won two more cups by defending his title twice as the handball champion of Canada. In three grueling games Phelan defeated E. R. Suga-gaman. He then took F. Crowe Jr. into camp in easy fashion.

Fullerton, a right hander, who was sixth in the list of leading pitchers in the North Western League last season, having won 11 and lost 8 games, while he had pitched 351 in the twenty-eight games in which he figured, has been secured by the Royals in trade for Frank Kipper, who goes to Seattle.

The Ottawas last evening started on their long trip to the coast. The expectation of the players is that they will return world's champions. They looked none the worse for their grueling game on Saturday. Duford and Graham, both of whom have played rover, will be used in that position in the seven-man game, while Broadbent, Barragh and Gerard will be the others on the line.

George Carpenier, the heavyweight champion of Europe, is neither a prisoner or wounded. He is in perfect health, and recently obtained special leave from his regiment to take part in a boxing exhibition in Paris given for the benefit of the Belgian sufferers.

Owing to the fact that his promising young pitcher, William Ritter, has been taken down with typhoid, John McGraw has urged his other players to permit themselves to be inoculated with typhoid serum.

While the Aberdeens were playing at the Arena, some one, through the use of a skeleton key, got into their dressing room and relieved them of all the money they had in their possession.

Desperate efforts were put forth by both Grover Hayes and Harry Condon to land a knock-out blow in the bout which they staged at the M. A. A. A. Success did not attend either. Hayes was as clever as ever in his boxing, and Condon did not lack any of his old-time aggressiveness. The fighting in the last four rounds was as fast as has been seen in this city for some time.

Ty Cobb has not yet reported to Detroit, and Joe Jackson is with a burlesque company.

All the final games for the Allan Cup will be held next winter in Winnipeg. The Associations in British Columbia, Alberta and the East will eliminate to one challenger, and these in turn will meet the holders in Manitoba. It is calculated that, as a result of the merger, there will be six Allan cup games in Winnipeg next February or March.

Freddie Welsh is on his way to Fort Wayne, Ind., where he meets one of the housepins on March 17. "Being a good Irishman," said Fred, as he packed away his fighting togs, "I don't expect to bring disgrace on the shamrock."

E. W. Wicks, who has been acting as secretary of the Richmond Club, has been appointed president and general manager of the Jersey City Club.

The Victorias of Toronto evidently got quite a taste of life in the Woolly West. The populace got after them with bottles and brick-bats, with the result that it was almost impossible to play hockey. It is also held that the officials did almost everything but score goals for the opposition.

A by-law has been passed by the City Council to admit of sporting organizations admitting other than their members to sparring exhibitions. Up to the present the general public has been excluded. Twenty-four hours notice must be given the police of any prospective bout.

Outfielder Wright, who was "loaned" by Buffalo to the Toronto Club last season, has been returned to the Blues. He swings a sturdy stick, but is shy on speed.

Eddie Duran, who has been challenged by Frank S. Hageny, the Australian sculler to row for the championship of America, replies that he will be ready to row the Antipodian by the middle of July, for a stake of \$1,000, or as much more as the challenger chooses.

Sam McVey and Sam Langford will have that long deferred battle out on April 11. They open their first show at the Atlas A. C. of Boston.

This Leo Magee, who jumped from the Cardinals to the Brooklyn Feds, which club he is now managing, is a regular firebrand. Because Leo Owens, the Toronto boy with his club, tangled him a little too hard, he threw a smack at Owens and attempted to strike him with his fist. Magee is the player who had several debts while with St. Louis.

LONDON MARKET STAGNANT. London, March 16.—The market in the late afternoon was stagnant. Americans unchanged from earlier prices. Canadian Pacific, New York equivalent 100.

GLEANED FROM MANY SOURCES

Average price twelve industrials 76.42, up 0.37; twenty railways 89.55, up 0.24.

The French have made substantial progress against the Germans to the north of Arras.

President Bush, of Western Pacific, quoted as favoring operation of that road by government.

Total attendance at the Panama-Pacific Exposition during the first three weeks was 1,488,874, an average of 70,000 a day.

Henry P. Fletcher, American Ambassador to Chile, called from Buenos Aires on board the steamer Amazon for Europe.

It is estimated that Billy Sunday will receive in aggregate \$100,000 for his 11 weeks' evangelistic work in Philadelphia.

Employees of the E. I. du Pont de Nemours Powder Co. plant at Haskell, N.J., will receive a 20 per cent. increase in pay.

Although no invitations for subscription to new German war loan were sent abroad, neutral countries have subscribed for \$30,000,000.

Austrian forces supported by Germans, are making a determined effort to relieve the siege of Przemyśl.

Treasury Department, until further notice, will issue no war risks on vessels bound to European countries now at war.

The Italian government has issued orders suspending exchange and telegraphic money orders with Austria-Hungary.

Constantinople says that eight of the French and English warships bombarding the Dardanelles have been seriously damaged.

Am. G. Chandler, of Atlanta, Georgia, awarded \$2,325,000 state of Ga., refunding 4 1/2 per cent. serial bonds at premium of 101.72.

Express Companies will be heard to-day by Interstate Commerce Commission on commission's order establishing zone system of rates.

Brooklyn Rapid Transit Co. has placed order amounting to approximately \$1,500,000 with Westinghouse Electric & Manufacturing Co. for equipment to automatically regulate speed of its trains.

Sixty-one non-commissioned officers and men of the Italian cavalry arrived at New York on the steamer Europa to superintend the shipment of army horses to Italy.

Lloyd-George, Chancellor of Exchequer, will select next week an industrial leader to take charge of the government combination of war manufacture, at a salary of \$50,000 a year.

A Baltimore firm contracted with the State of Florida for a canal 24 miles long, to cost approximately \$1,000,000. From Lake Okeechobee to the St. Lucie River, as a part of the Everglades drainage system.

Thomas A. Edison, who built a plant in 29 days at Johnstown, Pa., for manufacture of benzol, says: "This country allows 20,000,000 gallons of benzol each year to escape into the air in gas from coal in the manufacture of coke."

A Chinese mass meeting held in Honolulu to discuss the Japanese demands upon China, resulted in a message being sent to Peking urging the Chinese Government to refuse the Japanese demands, even at the cost of war.

Production of whiskey in Kentucky in January was 1,532,500 gallons, against 6,102,442 gallons in January, 1914; production of Pennsylvania was 1,672,808 gallons in January, against 1,552,445 a year ago, and in Maryland, 506,919 gallons, against 913,582. Whiskey bottled in bond in January was 691,398 gallons, compared with 928,197 in January, 1914.

Pres. Stevenson of Driggs-Seabury Ordnance Co. of Sharon, Pa., says his company will furnish no munitions for the European belligerents, having turned down millions of dollars worth of orders as he is opposed to war. He predicts a world-wide social revolution when a realization comes to deep-thinking people of the terrific debt they must shoulder as an outcome of the war, and asserts there will be a repudiation of some of the war debt, as was done by nine southern states after the Civil War; followed by a panic which will surpass the French revolution of 1789.

NEW YORK SHIP'S GOLD. New York, March 16.—Gold bars to the amount of \$300,000 are being withdrawn this week from the assay office by the National Bank of Cuba for shipment to Philadelphia. This consignment is for the first coinage for the Cuban government, which is to be executed at the Philadelphia mint. The coin will be ready in about two weeks. There will also be shipped at the same time to Havana about \$250,000 in silver coinage.

BIG ADVANCE IN COTTON. New York, March 16.—Realizing sales of cotton by local interests, selling by spot houses and the south caused a slight reaction in prices after they had advanced about 11 points from Monday's close. Liverpool strength was ascribed to the execution of a large buying order for Indian, Russian and French accounts. Exports so far total 11,000 bales.

H. R. H. THE DUKE OF CONNAUGHT. Who has been made Honorary Colonel of the 3rd Victoria Rifles.

THEATRICAL NEWS

"GIRLS"—A COMEDY WELL ACTED.

"Girls" occupied the stage at His Majesty's last night in more senses than one. George Fitch's well-known comedy was the attraction at the theatre and more than pleased the large audience of first-nighters who had gathered to see the play. The acting was well sustained throughout. The man having trio, who had sworn eternal enmity to the despised sterner sex, played their difficult parts in a satisfactory manner. It required delicate handling on their part to prevent the possibility of giving offence, but in every instance the situation was carried off in a way that pleased. The first scene where the three bachelor maids prepare for dreamless sleep only to have their dozing interrupted by a young man who takes refuge in their apartment, is the delicate situation referred to above. In this connection, Mr. Ancker played his part extremely well, better, as a matter of fact, than he played the part of the junior lawyer in the second scene, where the situation was more or less artificial at times. The closing scene, which was again laid in the girls' boudoir, saw the captivity by cupid of all the man-hating trio.

The Ancker Stock Company sustained their well-earned reputation in last night's performance and with the further strengthening of their forces which is announced for next week, this popular organization should continue to draw capacity houses.

DO WELL WITH DIFFICULT PLAY.

It cannot be said that the Princess Musical Comedy Company made a great success last night in their production of "The Red Mill," which the comedians, Messrs. Montgomery and Stone, made such a success of here on two occasions. Nevertheless the comedy was on the whole well produced, and was well received by a large audience, which on several occasions showed appreciation.

Ben Grinnell and Billy Lynn as "Con" Kidder and "Kid" Connor respectively, cannot be said to have filled their parts successfully. It is rather difficult to find two comedians capable of playing the parts so well as the famous Montgomery and Stone.

Miss Maynard as Tina, the Innkeeper's daughter, was as usual in her element. Her rendering of "If You Love But Me" was splendidly accomplished.

Miss Brown, as the Burgomaster's sister, played her part in an excellent manner. Her rendition of "The Legend of The Mill" and her effort in the duet with the Governor, Charles Bowers, were both pleasing.

Mr. Charles H. Bowers, as the Governor of Zealand, played his small part excellently, and his singing of "Every Day is Ladies' Day With Me" was very good, and he was obliged to repeat it several times.

Edward Beck, as Burgomaster, could not have been exceeded, and as for Tom Burton as "The Sheriff," suffice it to say that his acting was more than pleasing.

The comedy is well staged, the scenery being all that could be desired and the costumes picturesque.

DUBOIS SYMPHONY ORCHESTRAL CONCERT.

It was with pleasure that the Dubois Symphony Orchestra was listened to last evening, at the Windsor Hall. The aggregation of eighty-five players is an excellent one and reflective of much thorough rehearsal and study. A fact that soon became outstanding was that most of the numbers were of a lighter vein and did not include any heavy compositions, as was expected. It could easily be seen, despite numerous instrumental defects, which will soon be corrected, that the players themselves were of a high standard and would soon be capable of much greater results.

The "Petit Suite d'Orchestre" was fairly well handled, although marred by nervousness. The progress from this, however, was marked, and soon their renditions improved until the Liszt Piano Concerto, No. 1, E flat, with Miss Katherine Goodson at the piano, was reached. In this they outdid themselves. Miss Goodson showed a keen appreciation of her work and certainly did it full justice. She simply carried the whole away under her direction in a manner most marvellous.

Her playing throughout was most musicianly, especially in a Chopin suite in which she imbued much sympathetic feeling, and showed her great adaptability. She was enthusiastically applauded and finally played Liszt's 2nd Rhapsodie in grand style.

NOTES ON PUBLIC UTILITIES

At the annual meeting of the stockholders of Electric Properties Corporation in Richmond, Va., the directors whose terms of office expired were re-elected, and at the organization meeting of the board of directors in New York the following executive officers were re-elected: A. Ludlow Kramer, president; John Seger, secretary and treasurer, and J. H. Grassman, assistant secretary and treasurer.

United Gas Improvement Company announces gross earnings of \$9,084,845, as against \$8,613,194 for the previous year, an increase of \$471,650. The net profit for the past year amounted to \$1,896,400, which is equal to 14.22 per cent on \$55,625,950 stock, as against \$7,471,107 for the year 1913, which amounted to 13.46 per cent on the stock. The balance after dividends and the sinking fund reserved to retire Philadelphia Gas Works investment, had been paid, amounted to \$2,664,844 for the year recently ended, as against \$2,240,371 for 1913.

The California Railroad Commission, it has been reported, has denied the application of the Los Angeles Railway Corporation and the City Realty Company of Los Angeles for authority to transfer their property to the Los Angeles Railway Company. The latter company had asked authority to issue \$20,000,000 common stock in exchange for \$20,000,000 capital stock of the Los Angeles Railway Corporation and \$5,000,000 capital stock of the City Railway Company to execute a mortgage on its property and to issue bonds of the face value of \$23,544,000 to be exchanged for bonds of the two street railway companies and bonds assumed by these companies and now outstanding.

Several important developments in the production of natural gas in the States of Kansas and Oklahoma, where there are companies in which New York public utility houses are interested, were made during the month of February. A well was drilled by the Wichita Natural Gas Company near Augusta, Butler County, Kan., which showed an open flow of over 40,000,000 cubic feet daily. Gas was struck at 1,735 feet. Two other wells drilled in this vicinity had a combined open flow of 4,000,000 cubic feet. Reports indicate that new wells in Oklahoma in February had an aggregate open flow of 125,500,000 cubic feet daily, while those drilled in the Kansas field had an open flow of 77,300,000 cubic feet, or an aggregate for the two States of 202,800,000 cubic feet daily.

Operating revenues of Milwaukee Electric Railway & Light Co., a subsidiary to the North American Co., for the year 1914, were \$6,066,435, a decrease of .19 per cent; operating expenses, taxes, and reserves were \$4,323,424, an increase of .62 per cent, and net earnings were \$1,743,011, a decrease of .90 per cent. The railway department showed a decrease of \$110,592, or 2.62 per cent, but the light and power department increased \$99,171, or 5.52 per cent. During the year \$391,386 was spent in extension and development work on the property. On January 30, 1915, the Wisconsin Railway Commission rescinded its order of August 23, 1912, providing for the sale of thirteen tickets for 50 cents, which reinstates the franchise rates of fare and will, it is estimated, increase annual gross revenues by \$100,000.

Citing the rapidly increasing number of accidents due to the snarls of jitney busses operating in the streets of San Francisco and declaring the situation is growing intolerable to pedestrians and drivers, many citizens are demanding that the Board of Supervisors follow the example of the city across the bay and regulate the jitney service. The Oakland City Council recently passed an ordinance regulating jitney busses as follows: License fee, \$80 per year. Indemnity bond, \$10,000. References as to character. The council shall designate routes and shall provide a transfer system. Jitney busses shall be equipped with skidding devices and chauffeurs shall not drink or smoke while on duty. They shall stop before crossing street and steam railway crossings and the tonnage of the car shall be lighted at night. A maximum fare of five cents shall be charged and the driver shall be penalized to the extent of \$100 in the event that the ordinance is violated.

SOUTH AMERICA IS GROWING MARKET FOR TOILET SOAPS.

Washington, D.C., March 16.—Soap manufacturers in the United States may look to South America, as a limited but growing market for fine toilet soaps, most of which are now purchased from Europe. Laundry soap is generally supplied by native makers at such low prices as almost to prohibit foreign competition. The imported soap most popular in South America is a plain washing soap like castile. The prospects of selling American soaps in various South American countries are discussed in special consular reports No. 66, South American market for soap, recently issued by the Bureau of Foreign and Domestic Commerce.

NEW YORK EXCHANGE. New York exchange, \$6.59 1/2 to \$6.57 1/2 premium.

SHAKE-UP IN HIS MAJESTY'S CAST ANNOUNCED LAST NIGHT

Marion Barney, Dora Jane Keiton and James Mitchell Will be Replaced by Louisa Randolph, Helen Robertson and Jack Ridgley.

There will be several changes made in the members of the Ancker Stock Company, now playing at His Majesty's Theatre, according to the announcement made from the stage last evening. Those who have been following Miss Maribor Barney's excellent work while here will regret the fact that she is one who will leave. She is to be replaced by Miss Louise Randolph, to play leading parts and she will make her debut next week in Madame X. Miss Helen Robertson, who is known here through her connection last summer with the Orpheum Players, has been engaged to play second parts. Mr. Jack Ridgley will play juvenile roles. There has also been secured, a new stage director, Mr. W. S. Hawkins.

Both Miss Randolph and Miss Robertson occupied a box last evening, and were recognized by many.

The contract under which Miss Barney was working has expired and she will soon speed on her way to Vancouver, where she has accepted an engagement with a stock company. Miss Barney, during her stay here, has found her way into the hearts of many, through her excellent acting and strong personality. Miss Dora Jane Keiton and Mr. James Mitchell will also complete their engagements this week. Mr. Mitchell will leave for Sacramento.

All the new artists have strong reputations behind them and some considerable experience. Montrealers will unite in wishing the departing players farewell and welcoming the newly acquired members of the company.

NEWS OF WORLD TOLD IN BRIEF

Dresden Engaged and Sunk by British Near Juan Fernandez Island

REFUSES U. S. SUGGESTION

British Reply Delivered to American Ambassador and Protest Likely to Follow—Supply of War Material Causing Anxiety.

The sinking of the Dresden was announced by the British Admiralty last night in the following statement: On the 14th of March at 9 a.m. H.M.S. Glasgow, Captain John Luce, R.N.; H.M. auxiliary cruiser Orango, Captain John R. Seagrove, R.N., and H.M.S. Kent, Captain John D. Allen, C.B.R.N., caught the Dresden near Juan Fernandez Island. An action ensued, and after five minutes fighting the Dresden hauled down her colors and displayed the white flag. She was much damaged and set on fire, and after she had been burning for some time her magazine exploded and she sank. The crew were saved. Fifteen badly wounded Germans are being landed at Valparaiso. There were no British casualties and no damage to the ships.

The British Foreign Office has delivered to Ambassador Page its reply to the American note proposing to Great Britain the possible withdrawal by Germany of this submarine blockade provided England would permit food to reach German civilians. Great Britain's reply is an absolute refusal. The Foreign Office also delivered to the ambassador Great Britain's reply to the American note inquiring for further information in regard to the measures to be taken by the allied powers to cut off trade to and from Germany. The reply to this note is based largely upon the Order-in-Council, which was issued last night.

Great Britain's order-in-council explaining her embargo on all commerce between Germany and neutral countries was received with such evident disappointment that a strong protest against its terms was considered in official quarters as certain to be made soon.

Secretary of War Earl Kitchener gave a brief review of the war situation in the House of Lords yesterday. The war minister said that progress in the work of equipping Britain's new armies had been seriously hampered by failure to get sufficient timber and the necessary factory facilities. The supply of war material is now and for the next month or two will be a very serious consideration. It is absolutely essential that the output of ammunition be increased. To do so is of the utmost importance to the operations in the field.

The Petrograd Russky Viedomosti prints a signed article by Prince Eugene Trubezkoy on "Constantinople and the Dardanelles," in which the Prince says: "Our friends and our foes alike ought to know what is the point of view of the Russian nation as well as what is said by diplomacy, the one and only solution which accords with the state interest of Russia, namely, Constantinople and the straits must be Russian. Every other solution, whatever its nature, is impossible of acceptance by us, because every other would only make the position for us worse than it was before the war began."

England is now building six battle cruisers of 22 knot speed, which will be mounted with a new 18-inch gun. Such is the perfection of the building arrangements under the special plans prepared by the Admiralty that these ships, it is expected, will be launched within five or six months from the date of laying down; and they will therefore be in condition well within the present year.

Reports from Availik, Asia Minor, 66 miles northwest of Smyrna, say that the town has been besieged by Mussulmans who killed 60 inhabitants and 40 Greek recruits, says a despatch from Athens. It is reported that Mussulman soldiers massacred sixty Greek families in the village of Yemeri.

HIS PAROCHIAL VIEW-POINT.

Ottawa, March 16.—D. A. LaFortune, M.P. of Montreal, has a peculiar idea respecting the powers of the Federal authorities. During the course of the debate on the Budget he gave expression to the view that the status of his compatriots in the Province of Ontario is of more importance than the assistance Canada may render the Empire in the present war.

"We in Canada," he exclaimed, "should, instead of voting millions to aid England, take the necessary means to cause the disabilities under which French-Canadian suffer in the province of Ontario to disappear."

Mr. LaFortune repeated his statement twice though questioned as to what power the Federal Government had to interfere.

DAVIDSON VEIN ENLARGED.

Porcupine, Ont., March 16.—One hundred and twenty feet has been opened up on the Davidson vein located in January on the 300 foot level and shows as strong as on the upper level. The vein runs from four to eight feet in width. The drift is heading west, while on the 200 foot level the vein is also being proven towards the west.

A new Hardinge ball mill is being installed in the mill larger than the present tube and when in operation on April 1st, it will have the tendency to give a further increase to the production.

BANK OF TORONTO SUPERINTENDENT.

Winnipeg, Man., March 16.—J. R. Lamb, manager of the Bank of Toronto here, and superintendent of Western branches, has been promoted to their Toronto office, where he becomes superintendent of all the bank's branches.
