

You've waited for a car like this

YOU have waited wisely for the Chevrolet.

You have realized that the automobile—wonderful in its convenience—to the city man, means still more to the owner of a farm.

But you've waited.

Because you have felt that the ideal car for you was yet to come. And you were quite right.

It was for the Chevrolet that you waited.

Cars at a low price were offered you—but they lacked quality. Some you saw had quality—but they were too expensive in first cost, or too hard on tires and gasoline.

You've been waiting to see some maker produce a car, light in weight,

long on power, complete as to equipment—at a price considerably under a thousand dollars.

We've produced such a car in the Chevrolet.

You've waited for a car that both looks and acts like a real car—and yet doesn't take all the yearly revenue of your farm to run it. You've insisted that your car must have roominess, finish and beauty.

We've produced just that in the Chevrolet.

All the features that make this the ideal car for the city man are the kind of features that make it the ideal car for the farm owner.

Its valve-in-head motor is so strong and dependable as to earn for the Chevrolet the title, "Wizard of the Hills."

Its Cantilever springs give comfortable riding on roughest roads—without need of resorting to shock-absorbers.

Its electric lighting and starting system is designed and built into the car—as an integral part of the car.

And, finally, conclusively, its price is \$675 f.o.b. Oshawa.
