

**We want you to remember that HOLSTEIN COWS**

owned by me (formerly at Brookbank Stock Farm, Currie's) won all sorts of honors in milk tests at Toronto, Ottawa and Guelph (5 years), and among many other prizes in the show-ring, including sweepstakes at Toronto and Pan-American in competition with the best in the world. Our herd is always improving. We have now 5 cows whose official test average 22.4 lbs. butter in 7 days, 10 cows whose official test average 20.4 lbs. butter in 7 days, 15 (3 yrs. and up) whose official test average 19.8 lbs. butter in 7 days, 10 (3 and 4 yrs.) whose official test average 17 lbs. butter in 7 days, 10 heifers (average age 26 mos.) whose official test average 11 lbs. butter in 7 days. That is our idea of a dairy herd, and the kind of stock I handle. A few good young bulls, 1 to 13 mos., for sale.

**Gossip.**  
The live-stock show at the Lewis and Clark Exposition, at Portland, Oregon, according to information received from Mr. M. D. Wisdom, Supt. of Live-stock Department, will be on the following dates: Horses—Aug. 28 to Sept. 8; Cattle, sheep and swine—From Sept. 19 to 29. Entries close August 15. Prize lists, etc., may be had on application to Supt. M. D. Wisdom, Portland, Oregon.

The engraving on another page in this issue, of an Arab horse, represents Abayan Kheilan, No. 211, English Polo and Riding Pony Studbook, Vol. VII., a pure-bred chestnut Arab stallion, 14 hands 2 inches, bred in the district of Nagd, Arabia, and imported into Canada, June, 1904, by Mr. B. A. Harvey and Captain Cameron of the "Sutherland Polo and Riding Pony Stock Farm," Cobourg, Ontario, where he is being used as a sire to breed polo ponies and light horses.

A few miles from the picturesque town of Coaticook, in Stanstead Co., Que., is the breeding establishment of Mr. J. F. Parsons. The special lines that are kept are: Ayrshire cattle, Chester White hogs and Barred Rock fowls. The Ayrshires have every appearance of being a heavy-milking lot. The young stock is sired by a good bull from the noted herd of Mr. R. R. Ness. Among the lot are a few promising young bulls that Mr. Parsons is anxious to dispose of. Among the Chesters are a couple of boars, ready for service, that conform to the type of the bacon hog, and should soon be picked up. Among the Barred Rocks are some choice pens, mated with fine male birds, eggs from which can be procured reasonably. Barnston, Que., is the P. O. address.

Our representative paid a hasty visit recently to Colwill Bros., Newcastle, Ont., and found their Tamworths as usual in fine shape. Their sows have commenced to farrow, and have generally had good luck so far. They have a few boars ready for service from prize-winning stock that should be quickly picked up. These are good feeders and quite up-to-date in quality. This herd has an enviable record as prizewinners. Among the Shorthorns, of which there are several, we noticed one very promising young bull about ready for service, sired by Donald of Hillhurst, whose sire was Joy of Morning (Imp.), and his dam, Imp. Diadem. This young bull is said to be from a heavy milker, viz., Lady Colwill, of the Syme family. There are also a few good heifers for sale, nearly ready to breed, of the Syme and Lavender strains. Write them when you want such.

**TRADE TOPICS.**  
**THE AMERICAN THOROUGHBRED.**—A book that should find a place in the library of every horseman is "The American Thoroughbred," by Chas. E. Trevathan, being an interesting treatise on the history of the great English racing breed in America. The book contains accounts of numerous turf events, and embraces not only horses, but horsemen. Well bound, nicely printed in good reading type, and embellished with a dozen illustrations, it is good value for the price—\$2 net. It is published by The MacMillan Co.; Canadian agents, G. N. Morang & Co., Toronto, Ont.

**A DIGESTIVE FOOD TONIC,** which is a valuable adjunct to feeding properly, is the discovery of Dr. Hess, of Ashland, Ohio, U. S. A., and sold by Dr. Hess & Clark as Dr. Hess Stock Food. It keeps the animal fed in a thrifty, growing condition, capable of storing fat, and rapidly converting the fat into blood, bone and flesh. The small amount in which stock foods are fed would render them almost useless, were it not for this discovery. Many people who are skeptical as to the value of this food, have made a practical test of their value, and this is the only true method of ascertaining their worth. A 25-cent packet will demonstrate its value, and can be had on 30-day trial, or for 100 lbs. for \$1.00, including to Dr. Hess and Clark.
