

Bog Spavin

Cure the lameness and remove the hunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Lock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misapplied. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser

describes and illustrates all kinds of blemishes, and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

MINSTER HOLSTEINS AND YORKSHIRES.

Annual R. O. P. official testing has demonstrated the persistency and producing ability of the noted Minster Holstein herd of R. Honey & Sons, of Brickley, Ont. Practically all of the herd in milk are now in the official records, ranging in production from 14,753 lbs. for four-year-olds, to 9,151 lbs. for junior two-year-olds. All of the herd of to-day are young, and many of them are daughters of Lakeview Burke Fayne, a nephew in blood to the ex-world's champion, Grace Fayne 2nd's Homestead. Younger ones are by Triumph Vestra, whose several nearest dams gave 100 lbs. and over of milk in one day. Now in use is Ourville Sir Abbecker, whose four nearest dams have records averaging 26.43 lbs. From such breeding as this, for sale, are young females and several young bulls. Among them are several winners at local shows; a superior lot. In Yorkshires are some particularly nice young sows of breeding age. Write Mr. Honey.

SHORTHORNS, COTSWOLDS, AND BERKSHIRES.

C. A. Bonnycastle, of Campbellford, Ont., as a breeder of Shorthorn cattle, Cotswold sheep, and Berkshire swine, is well known all over this country. Stock bred on his farm, and particularly Shorthorns, have been distributed to widely separated districts, from one end of the country to the other, for very many years, and a proof of the universal satisfaction they have given their purchasers, is found in the repeat orders continually coming in. Forty-two head now constitutes the herd the majority of them of the milking Anchovy tribe, probably one of the best all-around, general-purpose tribes in existence. Others are daughters and granddaughters of Imp. Nonpareil Countess 2nd. and still others are Miss Ramsdens. The present stock bull is the Clementina-bred Woodholm Victor 84064, by Imp. Dorothy's King, dam Clementina Princess 5th, by Imp. Brilliant Star. Preceding him was the Stamford bull, Nonpareil Stamford 74525. For sale are six two-year-old heifers, and several yearlings. A snap for someone wanting Shorthorns to go on and make them money. Also five young bulls, seven and eight months of age. The offering in Cotswolds consists of ram lambs, sh arling ewes, and ewe lambs, an offering that will please intending purchasers, as they are a big, growthy lot, and well covered. In Berkshires, there are young stock of both sexes. Write Mr. Bonnycastle your wants.

PERCHERONS, HOLSTEINS, AND POULTRY, AT BEAVER CREEK STOCK FARM.

In the County of Lincoln, about five miles from Smithville Station, on the T. H. & B. railway, is Beaver Creek Stock Farm, the property of Albert Mittlefehldt, breeder of Percheron horses and Holstein cattle; also Buff Orpington poultry. In Percherons, all the breeding stock are imported, among which are the two great brood mares, Glancine (imp.) 8065, a black, by Manetout, and Galipette (imp.) 8064, a gray, by Colonel. Out of the former, for sale, is a black four-year-old stallion, by Distingue (imp.). This colt is possessed of exceptional draft character, and his underpinning is strong and of good quality. He will make considerably over the ton when developed, and the man that owns him then is likely to have one of the best draft horses in the country. The gray mare has a particularly nice filly foal at foot, by St. Charles 2nd. None of the Holsteins have been officially tested, but last winter there were eight of them milking, and the average weekly churnings totalled 120 lbs. of butter. This is reliable, and demonstrates as no other test can possibly demonstrate, the persistent producing ability of those cows, and with this is the nicest of type. The sire of most of the young things is Riverside Sir Aggie De Boer, a son of Sir Pietertje Posch De Boer, whose dam and sire's dam have records averaging 25.67 lbs. butter in seven days, and on his dam's side he belongs to the noted high-testing and high-producing Aggie tribe. Of the Buff Orpingtons there are for sale a number of cockerels and pullets, perfect in color. Write Mr. Mittlefehldt your wants.

You Can Make Bigger Profits

from healthy and vigorous stock. Pratts Animal Regulator renovates the system.

Cows give more and richer milk, with a higher percentage of butter fat. Calves grow strong and healthy and steers fatten quickly. Horses are improved in wind and staying power. Stallion service is surer. Mares are kept in vigorous health. Foals strong and robust. Colts grow quickly and free from scours and disease.
