

DE LAVAL

as superior to other
separators as other
separators are to
gravity creaming

THE above heading sums up the cream separator case, as it concerns every prospective buyer of a separator and every user of an inferior separator, in as few words as it could well be put.

OTHER separators skim cleaner than is possible on the average with gravity creaming, and De Laval Cream Separators skim as much closer still than other separators, particularly under the harder conditions of cool milk, running heavy cream or separating the milk of stripper cows.

OTHER separators produce a cream superior to gravity creaming, and De Laval cream is smoother, less frothy and so much better than the cream of other separators that De Laval made butter always score highest in every important contest.

OTHER separators save time and labor over gravity setting or creaming of milk, and De Laval Separators by reason of their easier turning, greater capacity, easier cleaning and easier handling save a great deal of time and labor over other separators.

OTHER separators save their cost every year, as a rule, over gravity creaming, and De Laval Separators save their cost every year over other separators and last from ten to twenty years, or on an average five times as long as other separators.

DE LAVAL Separators cost a little more than other separators, but very little, and they soon save that small difference and go on saving it every few months for all the years they last.

WHY STOP HALF WAY IN BUYING A CREAM SEPARATOR?

WHY then but half solve the problem of best results and greatest economy in dairying by the purchase of an inferior separator or go on dairying with this important problem but half solved if you are already using an inferior separator that you might so easily replace with a De Laval?

WHY not solve it now in the only sure and safe way possible? If you haven't a separator, buy a De Laval. If you have a poor separator, replace it with a De Laval. If it is not convenient to pay cash you may buy a De Laval on such liberal terms that it will actually save and pay for itself.

Every De Laval local agent is glad of the opportunity to prove every claim here made. It will cost you nothing and may save you much to give him the opportunity. If you don't know the nearest De Laval agent simply address the nearest main office, as below.

DE LAVAL DAIRY SUPPLY CO., LIMITED
MONTREAL PETERBORO WINNIPEG VANCOUVER

One-Horse Spring Tooth Cultivator

If there is no agent in your locality handling this wonderful cultivator, write us at once, and we will be pleased to give you full particulars regarding this implement and price on the same.

This is a Testimonial We Have Received:

Dear Sir,—
Re the Spring Tooth Cultivator, I find it the very best cultivator I have ever used. As a cultivator, its worth can only be verified by an actual use. I would not be without it.
