effect that it was desirable to use means for seeffect that it was desirable to use means for se-curing an ice-bridge annually, opposite the city, a committee of five gentlemen being appointed, for the purpose of acting in concert with the Mayor and the special committee of the Corpor-ation, in carrying out the said resolution. The majority of those present were, we understand, in favor of the necessary piers being built above, instead of below the city. The season, we should suppose, is too far advanced to commence the work this year; but we hope to see it perfectly completed for the winter of 1862.—Quebe Gaz-ette. ette. AST MOGMOJ

The electric fluid struck a tree on the grounds adjoining the Bar-rack Store Department, which is shivered to pieces, and another at Rose Hill, very near the residence of W. Tucker, Esq., which shared the same fate. The roof of a workshop and a large gate belonging to the Engineer Department were much injured. The storm lasted for a consider-able time. He was suspended by a piece of a cotton corn bag, forming a loop, from a stone screen, which was resting against one side of the quarry.—The man's knees were nearly touching the ground, his feet being bent upwards. He was clothed in a woman's under garment underneath which was a pair of woman's corsets. His own clothes were in a beap a short distance away from the body. It is evident that Rock had not hung himself, and further that life must have been extinct ere he was piaced in the position found. The only wound on the body was, we are told, a small puncture in the abdomen. The Coroner's Jury, after a most patient invess

The very best medicines is use among us are those prepared by Dr. J. C. Ayer & Co., of Lowell. He is a graduate of the Penn. University, whose connexion with that celebrated College of Medicine has conferred more distinction upon it, than its Diploma has upon him. His remedies have be-come household words not only in this country, but in almost every tegion of the earth inhabited by man. Their extraordinary fame has arisend their extraordinary virtues, and these areforerite our issue to-day, a document signed by the Mayors of the great cities in the United States, Canadas, Mexico, Peru, Chili and Brazil, each of whom cer-tify that the physicians and druggists of their res-pective localities have given their assurance of the uniform good effects and superior virtues of Doct. Ayer's preparation. This is evidence which should satisfy the most sceptical, of their efficacy, and we and we bag our readers to refer to it.
