Two men of Kingston, Colchester  
Co., were engaged in sawing fire-  
wood with a circular saw operated  
by horse power, when a piece of the  
iron framework of the saw stand  
gave way, jamming the saw and  
causing it to burst. A triangular  
part of the saw, seven by eight or  
nine inches, struck one man on the  
right breast, passing clear through  
his body and coming out below the  
left shoulder blade. Death was in-  
stantaneous.

Several of the troublesome youths  
of the town left one day last week  
for the suburbs in the southern  
part of the county on a junk gather-  
ing expedition. They reached the  
property of Mr. Howe Ward  
where they took possession of con-  
siderable of iron and steel. Officer  
Davis heard about it and investi-  
gated the matter which resulted in  
their arrest. They were up before  
Recorder Webster and after a little  
advice they promised to take it  
back and were let off. These boys  
are beginning to be very trouble-  
some in this matter and those who  
take the junk from them not know-  
ing where they obtained it are in a  
measure responsible for the act. If  
these dealers wish to buy junk let  
them purchase it at the houses and  
not from these lads as they accumu-  
late large quantities and obtain it  
in many cases by theft.

The show windows of Miss Davis

account of the small pox scare. The

perfect as if in the month of May—

The mail that leaves Kentville each  
day is thoroughly fumigated so that  
there is absolutely no danger of any  
germs of disease being carried into  
other parts by letters or papers from  
this place. Before being sent out the  
mails are placed in a closed room and  
the fumes applied. A moment in the  
room while the process is going on  
would strangle any person. While  
this precaution is being used to satisfy  
the fears of the public there is no  
danger of anyone coming to town and  
transacting ordinary business with  
the citizens. The two cases, or sup-  
posed cases, which we have are com-  
pletely isolated.

The International Correspondence  
School have an interesting announce-  
ment for students in this issue. Mr.  
Robinson manager of the Kentville  
branch office states that prospects are  
good in this section. The president  
has offered a special prize to students  
for the present month and it is worth  
trying for. The prize is a free trip  
to Scranton Pa., to examine the school  
there.

As the spring advances and the  
frost disappears, that is the time for  
a general clearing out of the rubbish  
accumulated during the winter in  
back yards and other places in town.  
The health officer will soon be on his  
rounds and so be prepared for him.

## Notice to the Public

I wish to inform the citizens of  
Kentville that after April 1st I will  
personally call for and deliver all  
packages for the Laundry, instead of  
the team of A. E. Calkin & Co as hith-  
erto. Thanking one and all for  
their patronage and support in the  
past and still asking for a continu-  
ance of the same for the future.
