

Mr. Scott on Coal Lands
(Continued from page 1.)

the trail on Stony Creek, in township 22, range 21, west of the third, last year a section of the cribbing was sunk over the spring by Councilman Fred Dowd, who had a horse bogged and drowned in the place. Archibald Campbell, one of the new settlers sent his boys to clean out the spring. They brought back a palful of coal which they found while digging. Mr. Campbell accompanied the boys on the next trip and they dug a little deeper and found more coal. Mr. Campbell then reported the find to a meeting of settlers on Monday, July 1st, and on Tuesday morning a party of twenty-eight settlers armed with picks, shovels, pails for hauling out water, and mud, and a testing auger, gathered around the spring. The locality is almost surrounded by steep hills, a tongue of the Bad hills on the south curving around to meet a spur of the Bear hills on the north.

The existence of coal in large quantities somewhere in the district is shown by the finding of coal in nearly every well dug in the district. Bags and palfuls of coal were taken home by the settlers who helped to expose the surface of the seam. The main object in the way of immediate development is the water from the spring. Settlers in the district are jubilant at the prospect of an abundant fuel supply.

DOLLAR WHEAT

Kansas, City, Mo., July 9.—With the harvest well under way in the southern portion of the wheat belt, the outcome of the summer's return from the fields is being canvassed by business men. Reports from the interior do not estimate that the reports of two weeks ago will be very much changed by the totals of the wheat yield. The quality, is ever likely to be above expectations, and this will have a helpful influence on the actual worth of the crop. Indeed there are many counties in Kansas and Oklahoma that are claiming they will have as many dollars worth of wheat as last year, this being of course on account of the high prices.

Oats a Failure

Some elements enter into the business conditions of the interior that are not generally realised by the eastern authorities. For instance there is this year, almost a total failure of oats in the territory surrounding the city. The cold weather and the green bug have made that crop probably the lightest in two decades. That means a great dependence on corn and wheat to take the place of oats. If the corn does not give a tremendous yield it will be stored more generally than in many years. In other words, of the three great crops in

the middle west one is a failure, one has only a below average yield and is just beginning its career.

Condition of Crops

The high price of grain that followed the bulge in the speculative markets moved a great deal of grain to the market. But with the wholly unprecedented amount of over two hundred million bushels yet in the farmers' hands, there is yet a good supply on hand and with a possible shortage of one hundred million in the yield of this country the farmers are going to try and get a higher figure than yet offered them.

Dollar Wheat

"We are carrying the largest cash reserve in our history," said the president of one of the oldest banks in the wheat belt today. "This is not because we are afraid of a run, but we have an idea that the farmers are going to try and carry their grain well into the winter unless the price is what they term 'right'." It is astonishing what the western farmer thinks should be paid for his products. He wants to fix a price and make the world come up to it—and the curious thing about it is just now that the world seems to be paying him just what he demands. The farmer's unions are educating him to the idea that he can get a dollar a bushel for his wheat; the politicians are telling him that he is monarch of all he surveys, and he is preparing to carry out both predictions if he can. This year at least until the crop is assured, he is likely to be very unwilling to dispose of his wheat except at a high price, and we are arranging accordingly."

LYNCH IS PARDONED

London, July 9.—On the eve of his visit to Ireland King Edward has granted a free pardon to Col. Arthur Lynch, who was convicted of high treason in 1904, for having fought in the Irish Brigade on the side of the Boers in the South African war. Lynch was sentenced to death, but later his sentence was commuted to life imprisonment, and in January, 1904, he was released "on license." Lynch was member for County Galway in the house of commons.

INTENSE HEAT

Chicago, July 9.—Five persons died in Chicago yesterday from the heat. Ten more were stricken and three of these may die.

It cannot be too clearly stated, for the statement is beyond any qualification of contradiction, that never since the Muskoka Free Hospital for Consumptives was opened in 1902, has a single applicant been refused admission, because of his or her poverty.

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

is dependent upon the contributions of the Canadian public for its maintenance.

ADMINISTRATION BUILDING—MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Private philanthropy has erected the buildings, providing accommodation to-day for 75 patients, and which the trustees are prepared to extend, if circumstances warrant it, to 100 beds.

These beds are for those in any part of Canada, without means, who are suffering from this terrible disease in the incipient stage.

There is no large endowment, as in some public institutions, the interest of which will go a long way to pay the running expenses.

The monthly bills, covering cost of administration, salaries of medical men, nursing, clerical and domestic staff, besides the heavy expenditure for maintenance of each patient, are dependent for payment almost entirely on the contributions that come to the treasurer from kind friends throughout the Dominion.

Could Not Pay—Has Young Wife and Child.

DR. G. F. CAMPBELL, GRAND VALLEY, ONT.—I have a patient, 26 years of age, with tuberculosis. His circumstances are not such that he could pay, as he has a young wife and child to support. Could you make room for him at the Sanatorium? I think he might improve. Let me know what you would advise.

Destitute.

J. AUSTIN, KINNOWAT, ONT.—I have a man, unmarried and destitute, afflicted with lung trouble, whom we wish to send to the Muskoka Free Hospital for Consumptives. Please let me know what we have to do to gain admission for him.

Where Will Your Money Do More Good?

Contributions may be sent to SIR WM. R. MURPHY, Kt., Chief Justice, Osgoode Hall, Toronto, or W. J. GAGE, Esq., 54 Front Street, W., Toronto.

Applications for admission and any other information from J. S. ROBERTSON, Secretary National Sanatorium Association, (Saturday Night Building), 23 Adelaide Street, W., Toronto, Canada.
