Bowel Troubles INSURANCE IN CANADA of Childhood

It is impossible to exaggerate the value of FRUIT-A-TIVES as a medicine for children. They contain no alcohol - no morphine or cocaine-no dangerous drugs of any kind.

Fruit-a-tives are fruit juices—con-centrated and combined with the most valuable tonics and internal antiseptics known to medicine.

Fruit-a-tives are free of calomel, cascara, senna and the host of violent purgatives that simply act by irritating the bowels. Fruit-a-tives are made from fruit and tonics and are pleasant to take, and so mild in their action that they never gripe or pain.

During the summer, when children are so apt to eat improperly, mothers should have a box of Fruit-a-tives always handy.

Confederation Life's Managing Director Testifies Before the Royal Insurance Commission at Toronto - Tells of Loans on Unauthorized Stock, and Is Indignant That Some Paying Securities Had to Be Sold.

Ottawa, May 29.—W. F. Maclean (South York) yesterday addressed the House in support of his resolution for the appointment of a special committee of the House to enquire into life insurance in all its phases, with power to send for persons, papers and things. He said the necessity for investigation and reform had long been evident. Canada's royal commission, after three months, had made little progress, and the people were growing dissatisfied and suspicious. Would there be any report at this, or even at the next session of Parliament?

The Government's policy is founded on the expectation that enough land can be obtained by the division of the crown lands, the clearing of a portion of the imperial forests, and the voluntary sale of private estates to meet the land hunger of the peasants without the necessity of forced expropriation.

Outlining these plans, Minister of Agriculture Stichinsky said last evening that the Government already had ing that the Government already had at its disposal 25,000,000 acres, com-posed of 10,000,000 acres of crown arable lands, stuated largely in the
