Paint King's Portrait. Marienbad, Sept. 4.—King Edward has commissioned Mrs. Leslie Cotton, a well-known portrait painter of New York, to paint his portrait. Two sittings have already been given and the results are most satisfactory.

Prince at Falls. Buffalo, Sept. 4.—Prince Wilhelm left here this morning for New York. Yesterday he visited Niagara Falls incognito, viewed the falls and other points of interest, dined at the Clifton House, on the Canadian side of the falls, saw the electric illumination of the falls during the evening, and returned to Buffalo at a late hour.

Feet Out. She Had Curious Habits. When a person has to keep the feet out from under cover during the coldest nights in winter because of the heat and prickly sensation, it is time that coffee, which causes the trouble, be left off. There is no end to the nervous conditions that coffee will produce. It shows in one way in one person and in another way in another. In this case the lady lived in South Dakota. She says: "I have had to lie awake half the night with my feet and limbs out of the bed on the coldest nights, and felt afraid to sleep for fear of catching cold. I had been troubled for years with twitching and jerking of the lower limbs, and for most of the time I have been unable to go to church or to secure because of that awful feeling that I must keep on the move. "When it was brought to my attention that coffee caused so many nervous diseases, I concluded to drop coffee and take Postum Food Coffee to see if my trouble was caused by coffee drinking. "I only drank one cup of coffee for breakfast, but that was enough to do the business for me. When I quit it my trouble disappeared in an almost miraculous way. Now I have no more of the jerking and twitching and can sleep with any amount of bedding, cover me and sleep all night in sound, peaceful rest. "Postum Food Coffee is absolutely worth its weight in gold to me." "There's a reason." Read the little health classic, "The Road to Wellville," in packages.

IN MONTREAL.

Sam Landers Working for Shorter Hours There.

Montreal, Sept. 4.—S. L. Landers of Hamilton, a member of the general executive board of the United Garment Workers, has been here for the past week in connection with the local strike. He expresses satisfaction with the progress made by the strikers for better terms. There were still seven hundred men and women garment workers on strike for a shorter work week and the abolition of piece work. Conditions have been much more favorable to the unions in Ontario as regards hours and piece work than in Montreal factories which led to complaints to the unions of the unfairness of the manufacturers and of the uneven terms.

AFTER THE GRAND DUKE.

Wrecked a Train Nearing Berlin and Eleven Persons Hurt.

No Member of the Russian Imperial Family Were on Board.

Berlin, Sept. 4.—The Prussian railway administration has offered a reward for the discovery of the person who wrecked the St. Petersburg-Berlin express, between Strausberg and Rehfeldt, near Berlin, shortly before midnight, resulting in eleven persons being injured. Presumably it was the work of an anarchist or Russian revolutionist, who hoped to kill a member of the Russian Imperial family, who is said to have been on board the train. The train was derailed, several cars were telescoped, and they afterwards caught fire. An examination of the scene of the wreck at daylight showed that the bolts had been removed from the fishplates of a fifty-foot rail, resulting in the latter becoming deranged after the locomotive had passed over it. The persons injured were mostly inhabitants of Berlin, postal clerks, commercial travelers and two army officers. It does not appear that any Russian of high rank was a passenger on the train, but the Grand Duke Nicholas Nicolai-vitch, with a staff of six officers, is expected to arrive here to-morrow on his way to the German army manoeuvres, when he will be the guest of Emperor William. The officials of the Prussian railroads are unusually alert at present, owing to the frequent accidents which have recently occurred.

MAKING GREAT TRANSFORMATION.

WHAT IS BEING DONE AT EXPERIMENTAL FRUIT FARM.

Rittenhouse is a Native of Lincoln, Although 'Welland' Has Claimed the Benefactor.

A trifling over two miles distant from the little station at Jordan, and having a frontage of 40 rods, on old Ontario's shore, covering an area of ninety acres, mostly clay loam, in the heart of the fruit district, there is being brought to ship-ships Ontario's new fruit experimental farm. The land on which the San Jose scale, the codling moth, the grape beetle and a dozen and one other pests that infest the ordinary orchards and vineyards, will never be found, is an almost level piece of ground. Standing on the fine, new piece of roadway along its lake end, one can see the whole extent of the farm from end to end. On the east side is the township line between Louth and Clinton, which is being rapidly put into shape for macadamizing. In connection with this model fruit farm, and situated on a portion of its grounds, is the finest equipped rural school in Canada. Last week the gardens of flowers and velvet lawns surrounding it, were a marvel of wonderment to many city visitors. Money has been no object in the beautifying of this school or in the excellent Victoria auditorium facing it across the roadway. In connection with the hall is a mammoth picnic grove. Granolithic walks and finely gravelled roadways, as sparkling as the dew, are scattered about and encircle the buildings. New gateways of massive white freestone, arched with iron grilles work, and surmounted with wrought iron gas lamps are pleasing to the eye. A perfect system of water-works is in operation, the pumping station being situated about a quarter of a mile north, at the lake end. Here also is a little grove of trees covering perhaps half an acre, growing in a semi-wild state for many years, and buffeted by wind and waves. But the magic wand of the benefactor has even started a transformation here, and the scops and road machines will have made a dainty residential place of this spot by next summer. Mr. Rittenhouse chose wisely and well when he selected the ground for the new farm amidst such beautiful surroundings of lake and forest. With a station at the Grand Trunk tracks, and the new walks down, the people will be able to reach the grounds in twelve or fifteen minutes. In comparison to the Glueph farm, the new one is of course very much smaller in the extent of its grounds. In locality, for excursions and picnics on warm days, it will far eclipse the Royal City's boasted sight spot. Mr. Pierce, a graduate of the Ontario College, is in charge at present of the preliminary operations, and has his hands full. None of the buildings proposed has been started yet, the work on hand being an elaborate system of under-draining, in which a large gang of men and teams are employed. They are housed and fed in tents on the farm. This week will see a system of roads cut through the property, which will much facilitate the proper carrying on of the work. None of the fruit men down this way expect to see very much experimental progress made before the spring of 1909. It will be that long, anyway, and perhaps another year later, some of them think. The Provincial Department is bearing the cost of the work on the farm, such as buildings, roads, etc. Mr. Rittenhouse gave the Province the property, is beautifying the surroundings, and improving the roads and approaches. The people down that way want it understood that the property is in Lincoln county, not Welland, as is printed in the papers every little while, and that Mr. Rittenhouse was born in Clinton township.

ILLEGAL STRIKE.

New Zealand Strikers Liable to a Year's Imprisonment.

London, Sept. 4.—Despatches from Wellington, N. Z., state that the Court of Appeal there has finally declared that the strike of the slaughter-house men and their sympathizers is illegal. The workmen who are participating in it, the court holds, are violating the award of the Court of Arbitration, and members of the fine may be imprisoned for a term not exceeding one year.

CANADA'S FOREST AREA.

The Official Estimate is 500,000,000 Acres.

The forest area of Ontario and Quebec has been estimated by R. H. Campbell, Dominion Superintendent of Forestry, at 70,000,000 square miles, or 12,600 square miles of pine and 120,000,000, or 187,000 square miles of spruce. The forest area of New Brunswick, according to the same authority, is calculated at 7,500,000 acres, or 11,720 square miles of mostly spruce lumber. In Nova Scotia the forest area is placed at 6,000,000 acres, or 7,812 square miles. Canada has therefore, in all, a total forest area of 500,000,000 acres. At 3,000 feet to the acre, which is a low average, there are 1,500,000,000,000 feet. In Canada the forest area is mostly situated on rocky elevations.

PREFERRED DEATH TO SCHOOL.

Girl, Forced by Her Parents to Resume Her Lessons, Shoots Herself.

Pittsburg, Pa., Sept. 4.—Emma Graham, eighteen years old, daughter of Burgess J. H. Graham, of Elizabeth, is dying at the Mercy Hospital from a revolver shot in her side, which she self-inflicted herself this morning. The girl is a member of the graduating class of the high school. School opened on Monday, but she declared that she would not go. That morning, when the bell rang, she still refused to go until her mother ordered her to dress and start for the schoolhouse. "All right," she declared, as she started upstairs. A moment later there was a revolver shot, and she was found unconscious in her room. She was hurried to this city, where it is stated at the Mercy Hospital that she cannot recover. The only reason that can be assigned for the act is that she did not want to go to school.

A Romance Spoiled.

The beautiful girl waded into the yeasty stuff. Presently she uttered a shriek of terror. "Save me!" There were seven men on the hotel piazza. They conferred hastily. Then the one with the clearest voice called to the struggling maiden. "A wfully sorry," he shouted, "but there isn't an unmarried man among us."

Then the lovely girl ceased her struggles and presently waded ashore.—Cleveland Plain Dealer.

Preparing for Witchhood.

A little girl who had intended to a discussion of the nature-fakers in literature, when asked to define the human and animal families, replied: "A brute is an imperfect beast; man is a perfect beast."

If people worked as hard as they worry they wouldn't have any time to worry.

The Bible tells us that the meek shall inherit the earth, but the Trusts don't seem to be acquiring it by inheritance.
