PERSECUTION OF FINNS BY RUSSIA

St. Peter burg, June 9-Premier Stolypin is exerting great pressure upon the different moderate groups in the Duma to persaude them to favor the law which practically abrigates the Fnish constitution. At the time the bill was introby his orders, began a campaign of terrorism making night searches and arresting leaders of the Poles, Little Russians, and other nationalities.

Within the last two weeks not fewer than 200 such searches and arrests have been made. Many of those arrested especially among the Georgians, are known as moderate and peaceful reformers. Searches were made in Kutais at the house of the president of the Man ganez syndicate, the business of which runs into the millions.

All these men are very very peaceful and honest but the premier's witnesses, as was provd in the Tscaikovsky case are ready to testify, and the arrest of these men is evidently meant to substantiate the premier's warning words in the Duma that the Nationalists are threatening the Empire. Until now no nationality, not even the orgians, who have the right to autonemy, has aspired to separation from the

of separation wll be aroused, which the Russian Empire, weakened by the Japa nese war and ruined economically will be unable to withstand.

Stockholm, Sweden, June 9-Thirty-five Socialist members of the Reichstag have sent a protest to the Russian Duma against the harsh measures being taken Finland and acking in the name of humanity that justice be shown to that

A CRUEL PARTY SLANDER. London, June 9 .- The Morning Leader says today: "We have already expressed the falsity of party slander put about with some show of shame by certain Tory papers concerning the late King Edward's death in his alleged failure to take time for spiritual advice on his death bed. The proon, G. W. Sparling. Alberta Col- verbial half hour's start, however, has -J. H. Riddell. D.D., A. D. Miller carried the libel round the world From Toronto it comes back to us with garish embellishments, for which the Queen Mother, Princess Victoria, the Kaiser and John Burns Edmonton Calder—To be supplied are impressed into rolls suitable for a Bow Bell novelette's heroes and heroines ,and scenes are invented in Buckingham Palace which probably would sound real in a log cabin of the west. We can scarcely blame those who publish this absurd but cruel canard. The whole blame belongs to those, who, under their own white flag and "Truce of God," not merely invented it but sent it forth in spite of their own knowledge. It must be false. We hope that they will feel a little

such mediums as the Toronto Even-

Wheat Pit. Chicago, June 8-Following close strong, A. J. Law, J. W. Wright. upon the heels of the decision of L. W. Ridley. Judge Julian W. Mack, of the Appelate court, declaring trading in "indemnities" on the Chicago board of trade to be a form of gambling and Clover Bar-R. H. Brett, F. J. John hence that money lost in such trading may not be recovered in an action at law, the directors of the board of trade today voted to post for ballot amendments to the bylaws of the organization eliminating everything re-

lating to "indemnities." The action of the board of directs of the board, coming as it does within a few days of the decision of the Appellate court in the suit of Nash H. Wright and company against John Dan C. Wright, a suit that was bitterly fought and upon which much depended, is most significant. Should board of trade be carried it will mean that "indemnities" trading or trading "privileges," as it is sometimes cal led, will be forever banished from the wheat pit.

This "privilege" trading as now carried on, runs into enormous figures in

1,544,853 Condition of Winter W In view of the strenge which have been made to ter wheat in this Province publicity which those atte aroused in other parts of t try, the condition of that cel particular interest at the pre This interest is more than tionate to the place which wheat occupies in the statistics of production. Its creage of 128.670 in a total 853 does not seem to warran branch of grain production grow it at all is a matter ance, and the enthusiasts ward to the time when A take her position alongs Texas or any other grea wheat State of the American respect to total output.

Causes of Damage. The reports of the depa correspondents indicate that per cent of the present winte crop has been destroyed d past winter and spring. vear was below the average, few districts. The snowfal the winter was light, and in tricts much of what did fa light as to drift from the f early spring dared the land and sun, causing evaporati ficient growth had been made Only those the ground. which an abundant supply ture had been stored and or plant had made a good star fall were prepared for so pre period of drrought. Some dan also caused this spring l frosts which followed odd longer periods of warm weath where the winter-killing h most general, however, a si in good shape. These fields ar summer-fallows where moist been carefully stored. Other being equal, wheat sown in

come through better than t Rain Has Helped the C Under all the circumstance increase of 26 per cent in under winter wheat is cons be very encouraging. ment's estimate makes allor all the abandoned areas. Gra is also expressed at the fact steadily extended over the although the larger part of grown south of the main 1 Canadian Pacific Railway. correspondents sent in their great improvement in the c the winter wheat has tak Abundant rains fell during week of this month, and een the means of saving which had begun to fail. which are now thin are ex give good results before t he season. Experience that, in this Province under conditions a vield of 20 to of winter wheat to the reaped from land on which

during the winter has been 50 per cent. Spring Wheat Shows Big Spring wheat, about w paratively little is heard shows up well in the est indicated area for the pres s 51 per cent larger the last year, a most substant isfactory gain. arge increase is to be fo fact that the spring was early, and the farmers wer to work the land much in other years. The aban of winter wheat were larg with the spring grain, acc part of the gain. High the markets of the warld be a factorr. An 190,000 acres in the total for the season is worth v

The Coarse Grains The area sown to oats increase of 10 per cent, a even larger than was expe gain last year was 61 per compared with the acreage and 126 per cent, as comp that of 1907. It is not to'l that the heavy rate of can be continued indefinite and that had been int spring wheat, on account of ward season, and also m where winter wheat had doned. The prevailing low oats, and the fact that a f part of last year's crop is s
