What's the Meaning of It All?

Some few weeks ago the Hon. C. H. Emerson, one of the members of the Executive Council, left here for an extended trip to England and the continent. To the surprise of his friends and acquaintances who knew of his intention to spend a lengthy period abroad his quick return was a matter of much surprise.

Mr. Emerson arrived last Saturday morning and the Premier, Sir Edward Morris, was waiting to see Mr. Emerson. So important was this interview that the Premier who was due to connect with the steamer at Placentia to go to Garmish, did not go out on Saturday on the regular morning train, which makes that connection, but took a special train.

What matter of public urgency demanded the presence of Mr. Emerson in St. John's? Was he recalled? If so, why? Why was the Premier waiting to see him? What made the conference important enough for the Premier to miss the regular train and take a special? Has Mr. Emerson been recalled to perform any special and important task, which he is considered uniquely fitted to perform? If so, what is the task?

What is its importance to the Government?

What is Mr. Emerson special fitness for it?

Will the questions be ignored as usual? Or shall we be told to wait and see and to possess our souls in patience.

And, by the way, will the public be called upon to pay for the special train, which enabled the Premier to catch the boat on Saturday, after his conference with Mr. Emerson?

Banking Fleet Here.

A fleet of bankers arrived here since Tuesday evening. Among them is the Lunenburg Percival S. Parks, Capt. Sam Parks, who came in Tuesday night for a bait supply and also salt. She has been 2 weeks on the Banks and captured 550 qtls. in that time. She is a vessel of 7 dories, and has 1,850 qtls. to her credit to date.

The Burn banker Kasaga, Capt. Goddard, also arrived Tuesday evening. She had been fishing 2 days only and secured 100 qtls.; she has 6 dories and has stocked 1,500 qtls. for the season. In the high wind which blew as she stood in towards this port she smashed the foremost at the polehead but received very little other damage. The vessels report fish fairly plentiful, and all will try to get a supply of squid bait.

VISITORS TO CONCEPTION.—Among the visitors to Conception Hr. yesterday, were Counsellors Myrick, Mulvey, J. P. Scott, Esq., Rev. Bro. Culhane, Revs. Bros. Ryan and Ennis. All of whom did their best to assist Rev. Monsignor Veitch to make the outing a success.

Little Girl Hurt.

A little girl named Mary Sparkes, aged 8, of Battery Road, had a narrow escape from death about 10 a.m. yesterday. She was in company with her brother and another child and the three crossed the street car track on New Gower Street near the foot of Lime Street. Mary was the last to follow her two little friends, and did not notice street car No. 5 come down Theatre Hill at a pretty rapid rate. The car was almost upon her when the motorman reversed his current and put on the brakes, but not before the little one was hit by the fender and was rolled along the ground a considerable distance. Condr. Squires jumped off the tram quickly and with Const. P. Whalen picked up the little one. She was borne into the store of Charles Truscott and Dr. O'Connell, who was called, responded quickly. The child was cut about the forehead and legs but not seriously, though she suffered considerably from shock. Const. Whalen later took her to her home. The incident goes to show the danger of people carelessly crossing the street car tracks.

A Pitiful Case.

A young man, a resident of the Cove Road, about 9.30 Tuesday night, gave himself up to Constable Lawlor on New Gower Street. He had been drinking heavily of late and had been afflicted with the "d's." The poor fellow feared he might commit suicide if he did not place himself in the keeping of someone in authority, and the officer quickly took him to the police station, where Dr. Rendell attended him, prescribed for him, and later on he was so much improved that he was given to his friends who took him to his home.

McMurdo's Store News.

THURSDAY, Aug. 24, '11.
After a summer holiday we always call attention to our Cream of Lilies. This is not merely conventional—there is nothing conventional about Cream of Lilies—but is an index to the fact that we always find it worth while to do so. Somebody will try it for the first time, and "once a user, always a user." If you have not, appeal to its help for sunburn, tan, irritation of the skin, do so now. Price 25c. a pot—adv.

Woman Badly Hurt.

Yesterday afternoon Mrs. Edward Walsh, housekeeper with Mr. Jno. Syme, met with a serious accident. She was passing over Syme's Bridge carrying a basket on her arm when suddenly the wind, which blew a gale, blew her over the structure and down on the rocks below. Passersby picked her up and found she was pretty badly injured. Dr. Tait was "phoned for and quickly responded. He found the woman's left leg badly fractured. The doctor splinted the bone and then came on here with the woman to the Hospital, where she must remain for some time.

The Rifle Range.

There were several interesting competitions at the Rifle Range yesterday but the high wind made shooting very difficult. In the forenoon the competitions were for the Donegal Badge, Persons' handicap prize and the Club prize. The winners were Harvey Thomas and Messrs. J. V. Morris and A. Thompson, respectively. These were at 200, 500 and 600 yard ranges. In the afternoon the men competed for the W. H. Greene prize and the R. G. Rendell handicap trophy at 500, 500 and 1,000 yard ranges. The former prize was won by Mr. J. W. Morris and the latter by Mr. George Langmead.

Indigestion & Dyspepsia

In all its Forms Can be Cured.
It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself, and at times I care for nothing. I often have a pain in the pit of the stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden."
Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

DR. F. STAFFORD & SON,
Duckworth St. and Theatre Hill.
Small size, 25 cents; postage 5c. extra; large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance.—aug2
