# Ladies' Costumes Fall--1915--Styles.

Was there ever a more fickle lady than Dame Fashion? She is always making changes, and this season has surely surpassed herself.

There is a more decided change in this Fall's styles than has been known for many seasons. While materials are similar, Serges, Gabardines, Tweeds, Cord, etc., the designs are absolutely unlike any of their predecessors. Coats are of many styles, chiefly a la militaire, with high collars, snug-fitting sleeves, and the entire coat in some instances is beautifully braided. Skirts are much fuller, both pleated and gored, and are worn very short.

As descriptions are quite impossible, we can only say that we carry the largest and smartest line of Ladies' Costumes in the city.

#### Gas and Hospitality.

The sound of motor wheels heralding the arrival of unexpected guests has no terrors for the housewife whose menage is run on up-to-date lines. While the visitors are removing the traces of travel, with the hot water which a gas water-heater keeps always. "on tap," a match to the gas fire makes the drawing room a place of warmth and pleasantness for their recep-tion; and the children love to "help mother" by toasting the crumpets before the clear and smokeless glow.

The gas cooker (or the modern gas trivet by the drawing rooms gas fire) boils a kettle of water in no time, and within a quarter of an hour after their arrival the guests are enjoying cosy chat over the cup that cheers. Should they be persuade to stay, the invaluable cooker makes it possible, even short notice, for the experienced housewife, after a raid upon her emergency store cupboard, to set before them a dainty dinner of which no hostess need be ashamed. Gas means ever-ready

Along the eastern front the Serbians appear to be holding their own against the Bulgarians making a stand on the western bank of the Morava river.
