So long as our opponents haven't unreservedly taken the standpoint that the integrity of the Allies' territory can offer the only possible basis of peace discussion, I must adhere to the standpoint, hitherto always adopted, and refuse removal, in advance, of Belgian affair from entire situation. Point "8" occupied parts of France are valuable pawns in our hands. Forcible annexation forms no part of the tention of which one couldn't give an approximate idea. He dwelt upon the entire difference between the Brest Litovsk negotiations and any previously known to history, one of the chief differences being the publicity given to various phases of the negotiations, the details of which were daily telegraphed throughout the world. It is quite natural, in view of the nervousness which prevails all over the they should produce the effect of electric shocks and agitate public opinion. We are in doubt as to the convenience of this system, but nevertheless we yield to the Russian Government's desire for publicity because we have nothing to hide. If we had wished to keep former secrecy the system might have created a false impression. Count Czernin emphasized that they should produce the effect of electric shocks and agitate public opinion. RIOT AT MOSCOW.

LONDON, To-day.

Among those killed or wounded in riot at Moscow, Tuesday, were many women and children. A Reuter despatch from Petrograd reports that a large procession of Bolsheviki with machine guns, armored cars, detachments and cavalry, armed red guards and German, Austrian and Turkish prisoners, arrived at Midday Square Theatre where thousands of spectators had assembled for the celebration of the anniversary of bloody Sunday. "Two revolver shots were fired and there was a panic with much wild rifle fire and machine gun shooting by the soldiers and red guards of Moscow. Council of Workmen's and Soldiers' delegates affirm that shots where fired against the men in the procession from windows at persons in the parade. Machine guns were turned on the Hotel Metropole.

THE AUSTRO-HUNGARIAN AN-

BASEL, Switzerland, To-Day.
The reply of Count Czernin, Austro-Hungarian Foreign Minister, to the speeches of Premier Lloyd George and President Wilson is summarized rather fully in the Vienna despatch received here to-day. Count Czernin, who is quoted as speaking before the Foreign Affairs Committee of the Austrian delegation, said that he considered it his first duty to present a lathful report of the peace negotiations with the Russians at Brest Littowsk, to corelate the different phases if events which had occurred previous to them, and to draw from them conclusions which were logical and ustified as a reply to those who found he course of the negotiations too low. Count Czernin explained the

ble annexation forms no part of the pression. Count Czernin emphasized the fact that to counter balance this official German policy. Conditions and methods of procedure of evacuations, which must take into account Germany's vital interest are to be agreed upon between Germany and France. I can only again expressly accentuate the fact that there never can be as question of the dismemberations between Austro-Hungary and

has linked itself to Germanism, which has in a highly gratifying manner increasingly developed, and of whose people more than 87 per cent speak the German mother tongues. Questions dealt with by Mr. Wilson, under points 9, 10 annd 11, touch the Italian frontier question and questions of the further development of the Anstro-Hungarian Monarchy and the further development of the further development of the Anstro-Hungarian Monarchy and the further development
