Quite a blaze took place on Monday night, at Coal Creek, when the big blacksmith shop was destroyed by fire. The building was only worth a few hundred dollars, but it contained some valuable machinery, which would run the loss into several thousand dollars. Nothing is known of the cause of the fire, which took place about 11 o'clock at night.

Rumor has it that R. B. Bennett, of Calgary, has become interested in the Wigwam Pulp and Paper Co., with big timber holdings south of Elko. It is said that Mr. Bennett has purchased the Ross interest in the company. If this is true we may look forward to something doing in the spring as R. B. Bennett represents big Canadian capital.

On Tuesday evening, many Coal Creek parents and children enjoyed the postponed Christmas Concert given by the United Church Sunday School children. The program was augmented by Rev. Humphries, of Fernie, who gave an illustrated lecture on "The Life of Christ." Mrs. Humphries recited an appreciated Christmas selection. Treats, rewards and presents were freely distributed, chief of which were: Rev. Burns, pastor, purse containing fifty dollars, from the Ladies' Aid; Mrs. Larmon, silver sugar bowl and cream jug, from the Ladies' Aid of which she is president; and Mr. Groat, Sunday School Supt., writing case, from the Ladies' Aid and congregation.

S. B. Wallace, of Fernie, has arrived at Detroit, Michigan, where he is taking special training to enter the automobile business. He is attending the Michigan State Automobile School in that city. The automobile industry is fast becoming the world's greatest business. The total registration of automobiles, trucks and tractors, in actual use in the United States is now over fourteen million. Production of new automobiles in 1923 was over four million. Ninety-four per cent. of these cars come from the Detroit district. Visits to these factories for inspection and study of their methods are part of the Michigan State Automobile School course. Being in the "heart of the automobile industry," Mr. Wallace expects to secure exceptional advantages. The Michigan State Automobile School is one of the leading vocational training institutions of the world, and has started many ambitious young men towards success.
