Local Market. Reported by A. M. Hamilton & Son. London, Wednesday, Sept. 19. WEEKLY REVIEW.

This week has been one of few events in grain circles so far as the local market was concerned. Wheat opened at 85c to 87c for red, and 88c

wheat opened at 80c to 87c for red, and 80c to 90c for white, held steady at these figures for the greater part of the week. Saturday's trading was done on the basis of 85c to 88c for red, and 88c to 91c for white; one exceptionally fine lot sold at 96c, and another load sold at 94c from same seller. These two sales are no guide, as it is seldom we find wheat equal to it.

The closing values were from 85c to 90c.
Oats have met with a moderate inquiry.

Buyers look for lower prices; 83c to 85c were today's range.

The offerings of barley were light, and the demand light; sales run from 80c to 85c.

Peas were scarce, and only a moderate demand existed. Sales were made from 80c to 90c, ruled entirely by the quality. The bulk of sales were made at 80c to 85c. The samples offered were poor as a rule.

One or two sales of rye are reported, the price varying from 98c to \$103. Some lots were thin and sold slow, while plump in clean lots were quickly picked up attop prices.

No beans, corn or buckwheat offered.

No beans, corn or buckwheat offered.

Butter was quite active all week. The close was 20c to 23c for crocks and 22c to 25c for pound rolls, a gain of 1c per lb all around.

Eggs continued to climb the ladder, and closed at a gain of from 1c to 2c. Stocks here are light the tellic by the heater and 12 to 14c. are light: 11c to 114c by the basket and 12 to 14c retail was the price at noon today.

Beef and all the rest of the meats show little

change.
Chickens were very plentiful and sales good, the demand being extra heavy. Sales by the quantity, 30c to 40c per pair, 40c to 50c single pair. Ducks quiet at 50c to 70c.

Hides steady; the demand was not so keen,

Hides steady; the demand was not so keen, but all offerings, after a slower sale, were absorbed at last week's values.

Fruits were steady. Peaches not quite so plentiful and a shade higher at 50c to 8% for good stock; plums higher at \$1 for green gages, \$1 25 for eggs, 80c for sugar and 70c for ordinary blue; years quiet, unchanged; apries dull at any price; potatoes easier at 70c; tomatoes also lower at 30c bu.

T. R., Simcoe street. The occasion partakes of the nature of a family reunion. A Great Day.

This will be one of the greatest days in the history of the Western Fair. People have poured in by every train and from every concession. The M. C. R. and the L. E. and D. R. R. ran special excursions, all crowded. Cheap fares brought in many by the C. P. R. Specials were run on all branches of the G. T. R., hundreds coming by the Huron and Bruce alone. The hotels are packed and the streets in the vicinity of most of them are blocked by vehicles. The attendance at the grounds promises to surpass last year's. Today is Farmers' Day, and the agricultural community has turned out nobly.

Speaking from over twenty years' experience, I can sum up in a few words some of the results of the indiscriminate use of glasses. In the case of odd eyes-gradual oss of sight in the weaker eye, ending in blindness of that eye, strabismus (or squint), diplopia (or double vision), and a gradual weakening of the good eye and making it much more susceptible to disease, glaucoma, iritis, etc. In cases of astigmatism, unsuitable glasses will cause neuralgic pains in the eyes, frontal headache, nausoa, paralysis of the accommodation, resulting in permanently impaired vision which no skill can restore. The time will comeand I hope soon - when sight-testing opticians will be placed on the same footing as dentists and chemists, and have to pass an examination before being allowed
