Ottawa, Sept. 1.-Under what banner will Conservatives assemble in the contest that is coming? It will be under the banner inscribed "Little Canada." Are the young men of this country going to rally under a banner with that motto on it, or will they not want something to inspire them? Will they not rally with us under a banner of "Greater Canada," boldly try, which is second to none in the world; a country with depth as well as width, and a motto "Onward, aling words of Hon. Pacific contract. Mr. Paterson was in fine form, and spoke with a vigor and force which aroused the enthusiasm of the Government supporters and elicited spontaneous and generous applause. He described the proposition submitted by the leader of the Opposition as a "hybrid enfolded within hybrid," and pointed out that as the Opposition proposed to buy existing railways and not build new ones, their policy would not give employment to men or create a demand for materials age to the Canadian artisan or the Canadian manufacturer. Neither would it provide additional facilities for handling a pound of freight or a bushel of grain. Constantinople, Sept. 2. - According to Government advices, Col. Jankoff, the insurgent leader, who, with a strong following is operating southwards of Demotyka, has been intrusted with the task of destroying the larger bridges of the railroad over the Maritza and Arda Rivers, so as to cut off communication with Adrianople from the south and delay the troops who are on their way to the threatened city. The Government believes it has taken measures which will bring about a speedy and, it is hoped, decisive battle with the insurgent forces commanded by Col. Jankoff.
