walk to the scaffold. The hanging was in the prison where the prisoner had been confined since return to this country, following his arrest in Canada. The condemned man, who, throughout his trial, and even until Home Secretary Churchill had refused a petition for his reprieve, had maintained an imperturbable calmness, presented a pitiable appearance as he was literally led through the short corridor from his cell to the wife's death in California.

This Morning, But Nobody Injured.

Engineer Thomas W. Stanfield, who resides at 105 Maitland street, was slightly hurt as the result of a collision on the Grand Trunk near Maitland street crossing about 9:05 this morning. The Ontario Express sideswiped a yard engine, throwing the latter off the track. Both engines were considerably damaged, and will be out of commission for some time.

The yard engine, in charge of Engineer Stanfield, Fireman Arnold, and Yard Foreman Ryan, was engaged in shunting. It was on the switch and was moving to take the main line to do some shunting east of Maitland street. Ryan stepped off the front to set the first switch, while Switchman Evans went ahead to turn those east of the crossing. He had just done this when he saw the Ontario Limited, with Engineer William Dean, Fire-man W. Nolan and Conductor W.
